

Cyborg Trade-Up Challenge: Master Ledger

Entity: Cornwell Enterprises LLC | Execution Model: Man + Machine Arbitrage Experiment

1. Core Rules

- **\$0 Cash Added:** Pure asset-to-asset arbitrage. No out-of-pocket cash additions permitted.
- **Physical & Intangibles Welcome:** Swaps are not limited to physical goods. Access, unique experiences, media/creative roles, equity, or specialized opportunities are highly preferred if they unlock exponential trade leverage (e.g., the "movie role" trade vector).
- **Execution Model:** Gemini acts as Quantitative Analyst (valuation, liquidity, risks, pitches); Human acts as Executive (DMs, physical swaps, final calls).
- **Radius:** ~30 miles from NW Ohio for local physical goods; global/remote for digital or intangible trades.

2. Active Trade Ledger

4	\$5,000 – \$80,000	Commercial equipment, clean road vehicles	Major platform features, equity/revenue share, ultimate trade into Cybertruck

4. Essential AI Prompt

Universal Trade Valuation & Friction Check

Use this single prompt in Gemini whenever evaluating a physical listing or an intangible offer:

Evaluate this trade offer against my current asset ([CURRENT ASSET], est. value [VALUE]):

Candidate: [PASTE DETAILS / INTANGIBLE OFFER / LISTING TEXT]

Type: [PHYSICAL / INTANGIBLE]

Provide:

1. Realized Fair Market Value (or perceived liquidity value if intangible).
2. Leverage Score (1-10): Does this accelerate the path to the next tier?
3. Trade Friction / Risks (shipping, travel, execution risk, fulfillment work).
4. Concise 2-sentence DM pitch/response.
