

unknownCleric's Comm Prices

TERMS OF SERVICE

By commissioning us, you agree to the following terms of service.

WE RESERVE THE RIGHT TO REFUSE ANY COMMISSION.

If your idea is too complicated for us, or we aren't comfortable with it, we will ask that you come up with another idea or choose someone else.

Commissions are *not* first come, first served. The order we do them in is based on what we're currently interested in drawing, though we do prefer to go in order if possible.

Payment is due once the lineart is completed. If we need to cancel, we will inform you of such. We will almost never cancel a comm after the lineart is completed unless an emergency happens - if we **are** forced to cancel a comm after lineart is completed or mostly complete, we will refund all money except for half of the base price (\$15 for most pics, \$10 for digitized traditional pics). You may also cancel the comm yourself at any time, but if the lineart is completed or mostly complete, you will still owe the same half base price. If any pics or alts have been colored, you must also pay for those. If you are having a financial emergency, you may negotiate leeway with us, and we will wait for your payment, as long as you promise to pay us back eventually. Failure to pay us will result in a permanent blacklist, and we will warn others about your refusal to pay.

Please have a concise idea of what you would like before commissioning us. Excessive amounts of alterations will be met with a fee at our discretion.

You may not publicly post our artwork without credit, unless we specifically ask *not* to be credited. Unless otherwise specified, please provide a link to or username of one of our accounts. We will provide you with our account links when asked.

You may not use our artwork to mint NFTs, train artificial intelligence models, create AI chatbots, or discriminate against us or others. Doing so will result in a permanent block, and we will warn others about your actions.

Kinks and themes we are comfortable with drawing:

Fat/weight gain (nearly any size), hyper (ass, thighs, balls, cock), weapons, anything pride related, pregnancy (preferably hyper), furies, gas (both kinds), *and a few more extreme kinks, ask if you are curious.*

Kinks and themes on a case-by-case basis:

Inflation (no spherical, head, or uber inflation), slob (depends on how detailed you'd like, may cause an upcharge), vore (depends on type and detail), humans/humanoids (depends on idea and if we're interested in the character), canon characters (again, depends on idea and character), sex (since it requires a multiple characters charge), most other things not listed.

Kinks and themes we are NOT comfortable with: Loli/shota/pedophilia (includes characters that look young but are *totally* 3000 years old!!!), blood, gore, death/necrophilia, zoophilia/bestiality, right wing politics/ideologies, discrimination based on gender/sexuality/race/religion/ethnicity/mental health/alterhumanity/etc, rape, torture, incest, anything else illegal or immoral.

PRICES

Note: Prices are slightly discretionary and up for some negotiation. These are moreso meant to be a general guideline.

BASE PRICE: \$30

Gain +1 (+1 per stack) flat colored pics. Increases base price by 0% (+100% per stack). Limited to 2 per customer.

This will get you a flat colored pic, up to 2 separate pics per customer.

DIGITIZING TRADITIONAL ART: -33%

Replace your Commission with Digitization.

unknownCleric will re-line a traditional art sketch digitally and color it. Reduces base price by -33%.

If you have a completed traditional art piece you'd like to see digitized and colored, the base price will only be \$20.

~~~~~

### CEL SHADING: +50% + 25% per alt

*Adds cel shading to the main pic and all alts. Increases base price by 50% (+25% per alt that requires it).*

We almost never do cell shading, so it's an extra charge. If an alt doesn't require a significant change in shading, the additional fee for a shaded alt is free.

~~~~~

COMPLEX DESIGNS: +50%

Allows for more complex designs. Increases base price by +50% (+50% per complex character).

Complex designs include things like intricate mechanical body parts, very particular patterns, or otherwise large amounts of detail. This includes things like slob.

~~~~~

### MULTIPLE CHARACTERS: +75%

*Gain +1 character in your pic. Increases base price by +75%. Limited to +1 per pic.*

Only 2 characters allowed per pic on most occasions. We \*might\* be willing to negotiate 3, but that's it.

~~~~~

SIMPLE ALTS: +50%

Gain +1 (+1 per stack) alts, including gas, hiding genitals, etc. Increases base price by +50% (+50% per stack).

Simple alts include things like gas alts, hiding NSFW bits, closeups, etc. As long as it doesn't require heavily modifying the lineart. Just hiding nipples is completely free, however.

COMPLEX ALTS: +75%

Gain +1 (+1 per stack) alts, including separate outfits, slightly modified sizes and poses, as well as extreme kink alts. Increases base price by +75% (+75% per stack).

Complex alts include major outfit changes, and pose and size changes, as well as several more extreme kinks.

~~~~~

#### SIMPLE BACKGROUNDS: +25%

*Gain a simple background in your image. This background contains some simple-shaped props. Increases base price by +25%.*

Simple backgrounds involve a handful of lines to indicate walls and ceilings, horizons, simplistic props, etc.

#### COMPLEX BACKGROUNDS: +75%

*Gain a complex background in your image. This background contains features such as complex props, tiling, or city backgrounds. Increases base price by +75%.*

Complex backgrounds include things like furniture, floor patterns, city backgrounds, etc.

~~~~~

EXCESSIVE REVISIONS FEE: +\$10

Gain +2 (+1 per stack) revisions beyond the usual limit. Increases TOTAL price by +\$10 (\$10 per stack).

This is a fee applied at our discretion, if we feel you have been asking for too many significant lineart changes. This includes leaving out details, asking to go bigger, etc. The first time this fee applies, you get 2 more revisions, but afterwards, you get 1 fee per revision.

Price markups within the same category stack additively, but between categories, they stack multiplicatively. For example, 2 simple alts and a complex alt is +125%, but a cel shaded pic with an extra character is +162.5%.
