

Name: _____

Date: _____

Homework: Bedbugs Research Paper

1. Find a journal article (scientific paper) about bed bugs. (You did this already)
2. Write a paragraph that summarizes (but does not paraphrase) the article, answering the following questions:
 - a. What research question were the authors investigating?
 - b. What sort of experiment did the authors conduct to answer the question? (You don't have to report every detail, just a few sentence overview).
 - c. What results did the authors find?
3. At the end of the paragraph, provide a citation.
