

## EL Education Materials Inventory: 6th Grade

This inventory is designed for teachers, department leads, or the site's materials point person to inventory student materials at the end of each module or the end of the year.

The *total required* for core texts and student workbooks should be based on the maximum number of students for that teacher or grade level. A teacher with 5 sections will need about 160 books. The *total required* for Independent Research Reading Text Sets at 6th grade is 1 per section of the class (5 sections = 5 text sets)

Name: \_\_\_\_\_

Inventory for (circle one):    **Classroom**    **Grade Level**

Material Name	Total required	Date of inventory	Quantity
