

A (Somewhat) Lewd Jujutsu Kaisen Jump

by Delos777/Goober/DuplexGraph (Me!)

Awooga

SHWING!

JK lol

You've been here before, Jumper. Curses, Sorcerers, and the tenuous balance that said sorcerers try to keep. Everything seems to be as it should...except it isn't? Odd, but things should be—Dear me, why is that man naked?! Okay, it seems things here in Tokyo have taken on a more lewd tone. While things worldwide are somewhat the same, the taboo of sex is almost nonexistent here. Any kink you can think of bar snuff is normalized, sex in public is a pretty common occurrence, and harems are not only common but, in some countries, encouraged.

Oh, it says here that the world is also more peaceful...odd considering what setting this is. Nonetheless, due to the perverse nature the world has taken on, it's seeped into the negative energy that humans release, turning Cursed Energy into Eros Energy.

This has changed the Curse/Sorcerer world *massively*. Curses are still curses, but due to the lust-infused energy they're made from, they take on a lewd form with more perverse actions. Giant dicks, vaginas instead of nipples, tentacle dicks. These are just some of the things a cursed spirit can manifest. Another thing to note is that curses don't immediately kill unsuspecting normies; instead, they drain the person of their sexual fluids and lust to empower them.

Sorcerers have also taken on a drastic change. The Eros Energy flowing through them has molded their body into their most sexual form. Expect sorcerers to have heightened libidos, larger phalluses, bigger breasts, and anything else sexually related to be heightened. *With that said*, this is still JJK, and sorcerers still need to exorcize the curses. Sorcerers are trained to use the lewd energy and get rid of these curses, often resulting in making the curses orgasm to weaken them, then killing them when weakened.

And I think that's it... Well, have fun! Oh, and if you've already been to JJK before, expect to be an outlier in jujutsu society.

Take **1000 Eroge Points (EP)** or if you're feeling fruity, **690 Eroge Points**.

Starting Location

Obviously, since this is Jujutsu Kaisen, you'll be in Japan, but I will allow you to choose where you can start. You can choose to start anywhere up to and including Shibuya, Osaka, Jujutsu Tech School (either one), or anywhere else in Japan.

Form

Believe it or not, but in this sex-filled world, what you look like *does* play a huge part in how good of a sorcerer you are. To fully understand, here are some things that you need to be made aware of.

Ero Energy is all around the world: Ero energy, the stuff Sorcerers use and what curses are made of, is all around the world. Think of it like a thin film that covers the whole world. It's not enough that normal people can notice it, but to sorcerers it's an undeniable fact that everything, including the ground they walk on, is infused with the erotic energy. Normally, sorcerers can't see the Ero energy in objects, but with enough training, they could. Naturally, there's a greater density of Ero Energy in Japan. To have a sorcerer or curse be born outside of the country is a one-in-a-billion chance. That's how rare it is.

As for how it affects the terrain? Well, as long as you do something Lewd, the ground will be more comfortable during the duration of the act. Things like the ground being softer, the ice not as biting, or even a heat wave being mild as long as you are doing something lewd.

Beauty Is A Fact: Thanks to the abundance of Ero Energy both in the air and being generated by humanity, you'll find that humanity's standard for beauty has increased. The average Joe and Jane are a straight 9/10, easily the hottest people you'll ever see. Hourglass figures, fit, toned bodies, plump and grabbable, chiseled or lean, whatever body type you can think of, they'll be cranked up to their near maximum of beauty.

Sorcerers, on the other hand, are on a different level. Saturated with Ero Energy, they exude an otherworldly beauty that puts even a 10/10 to shame. If the normies of this world are nine out of ten, then sorcerers are a fifteen. You'd easily be able to spot a sorcerer in a crowd due to the sheer beauty they exude.

The Body Reflects The Sorcerer: Unsurprisingly, Ero Energy has a more noticeable effect on sorcerers, but how exactly does that manifest?

Normally, it's the size of their lewd bits that reflects both the quantity of Ero Energy they have, and how well they control it. A sorcerer with a moderate amount of energy would have C-cup breasts or a six-inch penis, but someone who has reserves on par with Yuta Okkotsu would have a bitch-breaker, bordering on 20 inches, or breasts the size of a beach ball.

Basically, your sexy bits reflect how much reserves you have.

As for the rest of your body? Well, your output decides how old you look. The lowest age you can look is a young child if you have low output, and you'll age into a fine MILF/DILF if you have a large output.

Ah, another thing to note is that Femboys and Futanaris are a large portion of the Population. While not rare by any means, they inhabit every corner of the world. The reason why is currently unknown, but one thing that's been noted is that sorcerers who are femboys or Futas tend to have larger reserves compared to their other halves.

Other Things To Note:

While all of this can affect how you look, people and curses are unhindered by their base assets, having all the needs and requirements to live normally.

Now, here are some forms you can pick, and don't worry, they won't affect your EE unless you choose it.

Alpha Male - Free

Ah, while not exactly built like a bodybuilder, these men are those that perform exceptionally well in bed. High stamina, reduced refractory period, and a cock that can make any woman melt. Now you *can* look like a chad with this, but it's not the only body build you can pick. Something like a swimmer's build, a heavyweight lifter, or even just a hentai protagonist are some ways you can look.

Male sorcerers resemble their non-sexual parts the most. Having the most diversity of output and energy reserves, the only real things that change about them is their larger-than-average penises (8-36 inches erect) and their dense muscles.

Fertile Sex Goddess - Free

These women are of high stock. Literal sex on legs. With wide hips, thiccc thighs, slim waists, and large tits, these women are the textbook definition of lewd. I mean, what else can I say? All of your erogenous spots have increased sensitivity, so much that just fondling your ass can induce an orgasm if it's rough. More than that, you can experience multiple orgasms at the same time. Be careful, though, as this could cause an addiction.

Female sorcerers are probably the *worst* people you could pick to fight a curse. Now this isn't meant to be sexist (let's be honest though, it is), but their bodies are geared towards sex and only sex. With the increased sensitivity to all their erogenous zones, if they get caught off guard and don't have a strong will, they'll most likely break, not caring about whatever is fucking them and just wanting more.

One thing that female sorcerers do have over others is that they have a higher chance of being born with a cursed technique.

Femboy - Free/100

Unlike their more masculine brethren, these men could easily be mistaken for a girl. A phat ass and supple thighs, sensitive nipples, and a cute face, these men are probably the second most sought after for curses. Normally, femboys have a smaller penis (1-3 inches), but in exchange for their penis size, their anus and prostate sensitivity are increased tenfold. For **Free**, this is the body you start out with, but by paying an extra **100EE**, you can be a cut above other femboys. What this means is that while your ass is still extremely sensitive, your cock and balls can produce large amounts of cum. So much so that you can bukkake someone with just a single cumshot.

Femboy sorcerers are some of the most sought after for the sole purpose of reproducing. Unlike the **Alpha Males** who could get someone pregnant with enough time and effort, a femboy (Despite having a small dick) has a near 100% chance to impregnate a woman. If taken with the **100EE** option, not only will your loads be so large they can fully cover someone's face, but you'll be guaranteed to have your children inherit your technique, or on a very rare occasion, have them manifest an entirely new innate technique.

Like everything, though, there are some downsides. A femboy sorcerer's penis won't change size no matter how much energy reserves they have. What does happen, however, is that their anus's sensitivity will increase to unprecedented levels, so much that even putting a finger in there will cause an orgasm. Not only that, but your penis's sensitivity will also increase around a third of the sensitivity of your anus. You'll probably cum in a single stroke completely flaccid.

Futanari - 200

These people are a dime a dozen, probably 1 in 8 million. You could go a majority of your life without meeting a Futa. These people are probably the most suited for this world, having a club of a cock and a pussy so tight it could probably sever a dick off. How a Futa can look varies wildly, but most of the time they'll look like the **Fertile Sex Goddess** and have the stamina and refractory period of the **Alpha Male**.

There have only been 180 recorded Futa Sorcerers in Jujutsu history. Much like Sukuna from the main continuity, Futas are regarded as the most suited for sorcery. With a penis to fuck and a pussy to drain someone dry, these sorcerers are always considered some of the strongest of their time. By taking this, your Ero Energy will spread among your assets evenly, with your cock and balls taking most of the bulk. Another thing to note is that futas are among the tallest, with the shortest being 5'11, and the tallest being 7'8.

Legal Loli - +100

Ah, are you sure about this? Well, it's your body. Now, having sex with the body of a child is a pretty hard thing to do, even with the porn logic going on. With an underdeveloped body like yours, you'll be hard-pressed to find a good fuck who isn't a creep that likes to Diddy kids. You have a few body types you could pick, one of them being an oppai Loli. Unlike **Fertile Sex Goddess**, you won't have the required back support to handle your breasts. Another thing that you should be aware of is that regardless of whatever assets you have, you will act more childish in certain ways. What those are is up to you, but they have to be childish and inconsequential in nature.

In regard to sorcery, being a loli is more of a hindrance than anything. Your small body won't be able to handle most curses, and most sorcerers would rather use you as a disposable fleshlight. It's possible to be a successful sorcerer, but it'd take years of training.

Origins

Foreigners Really Are Great [Free]

The standard Drop-In option. Whether this means you're from the states or you got isekaid, you're entering Japan and Jujutsu Society with an outlook that is different.

Perverved Sorcerer [100 CP]

You are a well-established sorcerer in Jujutsu Society. While not up there in terms of fame or power, you're someone that someone can hire reliably.

Demon of Lust [100 CP]

Curse Users, Sentient Curses, Rapists. All those and the more sinister roles a porno has are here. You're evil to the bone, defiling the pure and reveling in the suffering. You probably enjoy NTR, you silly goose.

Honored One [200 CP]

The Great Harem King. You are at the top of Jujutsu society, having proven yourself not only to be the most perverted, but also both a martial and erotic master.

You Are My Jujutsu Kaisen [400]

Woah, you're not supposed to be here! Through some miraculous events you are probably one of if not the *only* Sorcerer in this world who's energy is normal, plain ol' cursed energy. You might be thinking, "Why would I ever choose this I'm here for the titties and femboy ass!" And to that I say there are perks to being the exception. Of which will be explained later.

Race

Human [Free]

A regular human, or rather a regular human by this world's standard. Expect to be beautiful/cute/handsome and have enhanced assets.

Half-Curse 100EP

These are a lot more common here than you'd think. These beings are the result of a curse mating with a human, whether man or woman. Depending on who birthed it, the Half-Curse will look like the mother. If it was a human, then they'd look human with some add-ons, and if it was a curse, they'd become more grotesque. Still humanoid, but resembling a curse. Non-Sorcerers can't see the add-ons *or* the more cursed-looking offspring.

Curse 200/600 EP

You are an accursed being, and while usually you'd be borne from the accumulated negative energy of humanity, you're not borne from Cursed Energy. The Eros Energy that you're made out of has warped your body to be as sexual as possible, fitting your fetishes. Unlike regular curses, you are sustained by the sexual fluids of those you capture and consume, gaining power every time you make someone cum. Normal humans can't see you, and the only way to really kill you is to exhaust you sexually. The more sexual fluids you consume, the more powerful you get.

For an extra **400EE**, for a total of **600EE**, you can instead be a regular curse, a being borne completely made out of cursed energy untainted by the lust of humanity.

What does this mean? Well to start your body isn't made for sex, instead built for battle. You feed off the negativity of humans and sorcerers. The more flesh you eat the more powerful you get. On top of that Ero Sorcerers can't do much against you, their lustful energy sliding off of you like oil. The sorcerers of this world are used to dealing with curses using their sexual prowess, so a curse not being affected by whatever lures or

skills they have will make them meet a swift end. Even someone like Ryomen Sukuna would take a few moments to figure out how to end you, used to fucking everything to death.

Perks

Origins get their 100cp perks for free, and the rest are discounted to 50%.

General Perks (Undiscounted)

The World Is A Porno - Free/100/200

The obligatory porn logic option. Taking this perk will make it to where STD's don't exist, sex will always feel pleasurable and sticking a foot long cock won't cause internal bleeding. Now, this has two modes. For **Free** this is just the standard, but there is an upper limit to how big things can get. For **100EE** though you can kick it up a notch, sizing things up to hyper levels. Cocks the size of a person, tits and asses as big as a beanbag, things are so large that you're surprised anyone can even function properly. For an extra **100EE** for **200EE** Total you can keep this post-jump, making any setting you go to have hyper proportions.

Jujutsu- Free/100/400/800/1000

The backbone of Jujutsu Society. EE is what emits from humans, and now that you're here, you do as well. What you can do with EE is dependent on your kinks and fetishes, with a majority of techniques being lewd. While EE is still composed of the more sinister energy of humanity, it's still filled to the brim with lust. Because of that lust it's taken a step back from the more lethal things it can do. As such, techniques that help with foreplay or ready someone for penetration are some of the most common that you can see a sorcerer have.

Innate/Inherited Techniques have also taken on a lewd tone, their main functions warped towards sex. Something like a fire technique could ignite someone's libido, or cause their body to heat up in a mating frenzy. Let's get into the main meat, though.

For free, you have a basic understanding of Jujutsu at the 4th Grade level. Basic reinforcement, creating barriers, and making low-powered shikigami are things you can do. Along with that, you also have a moderate amount of Eros Energy, your assets being the average of your world.

For **100EE**, however, your energy reserves are doubled. At this point your assets have increased in size, being well above the average size.

For **400EE**, your reserves of EE rival that of Gojo Satoru. You have enough reserves that your assets are some of the largest in the world.

For **600EE**, your reserves rival that of Ryomen Sukuna, a seemingly endless ocean of energy. Your assets are the pinnacle of size, only matched by the King of Curses himself.

Finally, for **1000EE** you have an infinite amount of Eros Energy. Your size has swelled to a truly ridiculous size. For free, I'll add that thanks to the infinite energy you have, you can freely change the size of your assets.

Endure To Outlast - 100

Less lewd and more utility. This allows you to train your reserves and output. Draining your reserves all the way repeatedly would increase your EE reserves, and forcing out your energy as much as you can will increase your output. This also applies to any other source of energy you have.

Mr. Clean - 100

With this, your holes will always be squeaky clean. Unless you're into it, your partner's holes will also be clean, lubed up, and ready for some freaky time.

Beauty is in the eye - 100

The obligatory beauty perk. While the people of this world are already beautiful, and sorcerers are downright divinely beautiful, you transcend both. Your beauty is unmatched, easily making you one of, if not the most beautiful person in the world.

Flavorful Cum - 200

Your sexual fluids are downright delicious. You can at will change the flavor of your sexual fluids. Make your cum taste like chocolate, breast milk like bananas, or your piss like strawberries.

A Hole is a hole - 200

Doesn't matter what hole it is, if it fits, you just can't resist, huh? This perk makes it so that as long as it's sexual, you can fit anything in a hole no matter the size. Sticking your penis in their ear, fucking their nose, doesn't matter what it is. A hole is a hole is the goal.

My Energy Smells Like Cum - 200/300/400

Something that's glossed over a lot is that a Sorcerer's energy can develop a texture to it; their energy changes to match whatever that thing may be. With Kashimo it was lightning, but *you* can pick a single concept, kink, fetish, or anything else that's related to sex. Your Energy is now like that, able to inflict whatever you choose on the person you touch it with. For an extra **100EE**, you can choose a second option, merging the two into a new form. For another **100EE**, for **400EE** total, you may change your EE to whatever you want as many times as you want. You must, however, conduct a ritual to change the texture of your energy. This ritual takes three minutes to cast.

Bringing The Freak Elsewhere - 300

This perk will allow you to bring and add Ero Energy to any setting you go to. Be warned, however, that if you do bring this along with you, there's a high possibility that this could change things drastically. Alternatively, if you want to, you can have Ero Energy seep into the world the moment you enter the setting instead of it always being there. Note that it would take a few decades at most for the people to change and a few years for Curses to start manifesting.

Retroactive Gender Morph - 300

You ever look at a piece of media and wish that guy was a hot girl, or that woman a muscled chad? Well, this is for you! At the start of every jump, you can choose as many people as you want to change the gender of. This could have massive consequences for the narrative of the setting or not change anything at all.

Quit Horsin' Around! - 400

You into some freaky stuff, huh? So am I, don't worry. With this, you can change the shape of your genitalia into your preferred shape. Knots, barbed, flared, all that and more are some shapes your penis can take. To add onto this, with a ten-minute ritual, you can change the shape to whatever you desire.

Tonal Shift - 400

This world is already perverted as is, but with all of Jujutsu society and the curses that plague humanity, things can still get dark as fuck. With this you can change both the genre and tone of the world. Maybe you want it to be more peaceful and slice of life, or maybe you want to further dig this world deeper into depravity. Once per jump or ten years, you can change the genre and tone of the setting.

Blessed By The Pink Sparks - 600

A black flash is a phenomenon that very few sorcerers are capable of. It happens when the user applies their cursed energy a millionth of a second when their attacks land, the energy flashing black as the energy explodes outward. Those who manage to land one feel omnipotent, as if they're able to do anything, their fighting capability rising up to 120% as they enter "the zone." Another factor of landing a black flash is that their manipulation of cursed energy is increased, making a black flash more likely to land again.

A Pink Flash is the perverted brother of black flash that you can't seem to get rid of but will help you out, whether you want to or not. (Not sure I want to keep this) A Pink Flash is a phenomenon that happens when you use your energy for a thousandth of a second when you either penetrate someone or get penetrated. While not as rare as the black flash, the pink flash is a double-edged sword that could either help you or make things more difficult.

To start with the downside, for the first half-second the euphoria you feel is so intense you instantly orgasm. This could lead to a shift in the fight/sex, leading to a chance of you losing whatever advantage you had.

The upside of this is that you reach a sort of "Post-Nut High". After the half second, you can ignore the pleasure you're feeling and gain a boost of stamina equal to half your regular endurance. The high you feel is a secondary effect. The main thing that happens after landing a pink flash is that your body can sap the EE of the person you're having sex with, storing up to 120% of your natural reserves to keep on going. (I'll keep this here for now. Maybe I'll change it.)

You've been blessed, able to land a pink flash semi-regularly to the point that to an outside viewer it looks like you can do it at will. As an added bonus, your manipulation of Ero Energy has reached a level of efficiency that you'd be hard-pressed to find an equal to.

Restricted By The Heavens - 600

There are people who are born with a binding vow, something that's reinforced by the heavens themselves. These "Heavenly Restrictions" are binding vows that place special conditions on the person, and this specific Restriction is something else.

For starters, you can't orgasm, ever. No matter how much you try, you'll never feel any kind of relief. You are forced to edge for the rest of your life unless you can find a way around this restriction. The Second thing that's going to happen is that you'll constantly be leaking precum-infused Ero Energy. You will constantly be losing energy with little to no loss, but the constant need for release and energy loss could prove fatal if not handled correctly.

Despite the fact that you can't orgasm and the constantly leaking energy, whatever innate/inherited technique you have will have its potency increased to 169%. More than that is that the range of your technique is increased drastically. Where once your technique could only reach ten yards, it can now reach ten miles.

There have been very few people who were born with this Heavenly Restriction. Those who did have this managed to become pretty successful sorcerers, easily becoming a semi-special grade with just the barest amount of effort.

Sex Eyes - 700

A (somewhat) mythical pair of eyes that shows up every now and then. At most you'll see about two or three people with these eyes in a single era, and you could go about a century without seeing a Sorcerer with them.

These purple eyes allow you to manipulate your cursed energy with absolute efficiency, turning the cost of a technique to an eighth of the cost and reducing the strain of some cost-heavy techniques. Like the six eyes, you can see more than the basic color spectrum, able to see things like thermal and ultraviolet. More than that, though, you can see the way Ero Energy flows. Even with a glance, you could deduce how much reserves a person has and maybe their technique if you know.

The main draw you're probably here for is that you can see someone's most sensitive spots. They glow a soft pink, and with some focus you could even determine the kinks and fetishes they have from the shape of their energy/soul. Also, like the Six Eyes, using them regularly can cause strain.

In a sexualized world like this one, these eyes are coveted pretty religiously, so expect people to form alliances/hunt you.

Form Perks (*This will have one of each 100, 200, 400, 600, and maybe 800*)

Alpha Male

It's Like a Pringles Can - 100

Woah, is that a can of chips or are you happy to see me? In a lot of pornography the male lead is always depicted as a hung sex god, and so are you! What this perk does is that if you want, your penis becomes the absolute maximum size for whatever species you are. Granted you have to *have* a penis or something similar to begin with, but as long as you have this you will always be well endowed.

This doesn't just apply to your penis size either. Anything else that's associated with the male gender is also enhanced like this, always taking on a pleasing yet masculine shape/form that fits your taste. Maybe you like slickback horns, or maybe your wings are the most colorful.

What do you mean I've got rizz? - 200

Let's be real. A lot of hentai/porn protagonists shouldn't have pulled the girl they featured with. I mean, how the fuck does an actual otaku pull and absolutely demolish a gyaru that hates their guts? With this perk people you deem attractive seem to flock towards you like fruit flies. It doesn't necessarily have to be positive, but there's just something about that seems to keep bringing them back.

Talk Dirty To Me Baby! - 400

You just know what you're doing huh? Now this isn't exactly a cuck perk, but it may as well be one. Any time you're having sex the person you're doing it with seems to just...let things slip. They're not necessarily big secrets that could damn them, but that doesn't apply to anyone else. So long as what you're asking for is perceived as dirty talk or any other form that's sexual, they'll answer back truthfully. I must note that there are layers to this depending on how much it affects them. Something they overheard at work would just moan out, but giving you information on where their very murderous bosses' location would probably snap them out of whatever sexual haze they're in.

Ape Together Strong! - 600

Ape together strong, ape must communicate! God, kill me now that was cringe. Anywho! Ignoring what I tried doing there, this perk is what every wannabe harem protagonist needs. The power to...manage a harem!

On the surface this might not seem like much and not worth the price, but with this you gain a supernatural skill at managing the relationships between the people in your harem. Let's be honest. A lot of the characters people are attracted to have *something* going on with them. Whether that be angst, psychosis, or they're just a straight up evil/bad person. This lets you smooth things out between harem members, or even straight up change someone's moral alignment.

Fertile Sex Goddess

Sex On Legs - 100

You just exude a sex appeal that no other can match. Whatever form you take regardless of gender (But primarily focuses on the female form) your body becomes sin incarnate. Much like how the omnitrix turns the wielder into the prime version of that species, this also does that but focuses on the sexual aspects. While this could still work if you were a male or some other third thing, the effects are more pronounced on females.

Pheromone Control - 200

Did you know that our taste is mostly just us smelling the scent of that food? It's why you could smell something like lemon cleaner and taste it in something like lemon yuzu. With this you gain control over the scent you emit. Now while this *can't* increase the amount of pheromones you emit, you can change the chemical composition allowing you to change what you smell like.

Take for example making yourself smell like beef. Beef is something we associate with food and so having that smell emit around you could potentially make those around you crave it. *Or* you could change it to where you smell like cum. Out of jump you might get looked at like you're some slut, but here in this sex filled world some might like that fueling their desire to have sex with you.

She's A Gluttonous FailGirl! - 400

Woah ma'am, watch where you swing those things! You have an extra-dimensional stomach that holds basically as much food as you want and slowly digests it into usable energy. Jujutsu wise this means you have an extra battery to use in battle. Something that you should note that if you *do* eat past your limits your breasts, thighs and ass will inflate the more energy you store. Theoretically you could eat eight times your weight and go into a fight later on with the extra energy.

One thing I should note is that any food that goes to this extra stomach doesn't count towards your daily needs. You'll need to actively think about which stomach you want to fill, and if your normal stomach is at capacity and ready to burst any excess food will go to said dimensional stomach.

Broodmother - 600

You're like Tiamat, the mother of all monsters. Whenever you get pregnant the gestation period is greatly reduced, taking only three weeks before your spawn is born. All children that you birth will be healthy with a slim to none chance of having any defects.

The main draw of this perk however is when you're impregnated by something that isn't your race/species. Much like Tiamat is the mother of monsters, you're able to birth children that have enhanced physicality, increased reserves to whatever system they use and the instincts to handle themselves in a fight. If you were to birth a Half-Curse that a grotesque tentacle curse put in you they'd mostly look human save for their lower half

being octopus-like. Any and all children you birth will be pleasing to the eye when matured.

Another thing to note is that your children also age rapidly so that they can protect themselves, but depending on whatever their sire is they might lag behind in the mental department. On average it takes about a year and a half before they fully mature.

Femboy

Confused Arousal. Scarousal? - 100

A lot of people can mistake a femboy for a girl and when they figure out they're a guy they *always* freak out at the fact their attracted to a dude. This perk amplifies that confused arousal, momentarily stunning them. Everytime you reveal your gender to someone that isn't the one you identify as, they will have a bout of gay panic, momentarily losing focus. Now this doesn't only apply to femboys but also tomboys too and even very muscular women!

The Prostate Is The Feel Good Button - 200

The Femboys of this world have prostates that have massively increased sensitivities, so much so that barely any stimulation to it could make said femboy cum. You now have the power to ramp up the pleasure felt when you stimulate someone's (or your own) most sensitive spot. The prostate, clitoris, and sometimes even the nipples or tip of your penis are spots you can increase the pleasure of.

Not only is their pleasure increased that they can barely think a coherent thought, but whoever you do this to will have a minor increase in power. It won't be much, maybe a 20% increase at most after a very intense session.

Fuck That Twink! - 400

Wow, they really want that boi booty. Your ass is PHAT. Like, phatter than the women here, which is saying something! More than that though your ass has a supernatural lure to those who have a dick. They want that ass, and they *are* gonna get it. Getting fucked in the ass is already enough of a reward, but we can take this further and make you a sort of pseudo-incubus.

Every time your partner ejaculates in your ass, you can take a portion of their power. Not a big amount! Maybe you can siphon around a half percent or maybe 5% of their power if the ejaculation is big enough. The main draw is that depending on who you fuck, that power you stole could be bigger than some random person. This applies to anyone that has a secondary power source, stuff like chi, nen, mana are all viable energies you can siphon to add to your own ero energy.

There's also a very low possibility that you could gain a weakened version of whatever innate technique they have.

Femboyification - 600

The ultimate power for boi lovers. Have you ever looked around and thought, why aren't there enough femboys? Well, with this you can change that! Now, you can't instantly change someone into a femboy. It's a process, usually taking around two to three weeks for the effects to fully take effect. While this obviously applies to men, you *can* use this on women for the opposite effect, turning them into Tomgirls.

Now this has two parts. The first one, obviously, is the transformation, but the second part of this perk is that you can steal the masculinity or femininity of whoever you use

this on. That stuff has to go somewhere and now that you can store it this let's you do a few things.

First, you can use this to circumvent the finality of having a small penis. It takes a lot of masculinity to even gain an inch but it *is* possible to have made it bigger. The second is that the femininity you steal from women can be used to increase the sensitivity of men's chest and make them lactate. The milk will always taste delicious.

Finally, you can use the imities you steal to empower your sexual abilities. If you had a power that could alter the sensitivity up to 100x then with this you could push it further, probably going up to 300x the sensitivity.

Legal Loli

This Feels Wrong... 100

As it should, Jumper!

Let's be real. Even in a world where sex is normalized and a large variety of kinks aren't taboo, Lolicon is one of the few things that people still find to be too much. Don't get me wrong, people will still fuck you senseless if you consent to it. It's just that in general society will treat your relationships as taboo.

This perk helps with that! Now, whenever you enter a relationship regardless of age, people will find nothing wrong with the age gap. Doesn't matter if you're the child or if they're over 2000 years old, nobody will shun you.

Rapebait 200

Holy crap these people *want* you! There's something about your youthful body that just makes people go *crazy*, their thoughts filled with the most sadistic and vile things they want to do with your body. You have an aura around you that just seems to bring their pedophilic instincts out, falling over themselves to touch your kiddy body. As gross as they act and their wants being some disgusting stuff, it's actually a lot more tame than you think.

Don't get me wrong, they *crave* your body and the things they want to do with it, but they do it in such a way that they never actually fall through with it. They'll buy you ice cream, give you dolls, all just to get a taste of you. And when you tell them your age? They'll be disappointed, apologize for their behavior and leave you alone. This aura can be toggled on and off at will.

Mister, Why Is Your Peepee Hard? 400

Looking like a child has a lot of problems in this sexy world, but there are *some* advantages that Lolis and children have that you can use to the absolute extreme. You can, in your most innocent voice, ask a question to any person and they'll be compelled to answer.

This question can be just about anything and they'll lean down and gently explain in detail about whatever you asked. I shit you not the sheer scope of what you can ask is truly staggering. Only something that could actually hurt you or the person prevents them from answering, and even then with persistence they'd eventually cave if you give them the puppy eyes.

Henshin! 600

Congrats Jumper, you're a magical girl now! No, you don't actually get any magic, but channeling your Ero Energy can induce a transformation that give you frilly clothes that barely count as clothes. This comes with a lot of benefits, the most notable being that your powers have increased to 200% of their power, and your reserves being a near bottomless tank.

Another thing you can do as a magical girl is RCT, or Reverse Cursed Technique. So long as you're transformed you have unfettered access to RCT, but out of your transformation you forget the feeling and must learn how to use it.

Finally, when you de-transform your experience burnout, and can't use your EE for the next five minutes and must wait.

Futanari

Guess Mines Bigger~! 100

As much as the **Alpha Males** dominate in sex and penis size, you seem to be a step above them. No matter what world you're in, the size of your penis is 69% bigger than whatever species you consider "Big". If humans think 8inches is big, then you'd be roughly 14-16inches.

This doesn't apply to just your junk. Your tits and ass are also large than what most would consider big, and borders and straight gigantic while still being pleasing.

PLAP PLAP PLAP GET PREGNANT!!! 200

Woah Jumper, that's pretty aggressive! A lot of hentai that's out there have futas as domminering, and now so are you. You have mean domme streak, being able to cow anyone sexually with just the barest effort. Get rough, choke someone out while mating press them, they'll love it and cum their brains out.

More than that though, any person you dominate this way becomes addicted to you, craving the way you abuse them and wanting more.

Futas Are Pretty Rad 400

That they are, perk name. That they are. Okay, real talk this perk is pretty simple. You can turn anyone into a futanari with just a touch, turning them into a beautiful women with an absolutely massive dick. The change happens over the course of three days, and the victim don't seem to notice the change until it's too late. More than that though, you actually have some say in what kind of futa they become. Turn them into a muscled seven foot goddess, or give them a dicklet that spews out watery fluid near constantly.

As long as it's futa anything is possible.

Greatest Futa of Today 600

Stand proud Jumper, for your strong. Your body has been remade into the perfect form, Having two pairs of breasts and four dicks. No, I'm not joking. Much like sukuna you were meant to be a twin (albeit one with two dicks but let's ignore that) but you defied that fate and ate your sister in the womb. Four eyes, four arms, four breasts and four dicks...I'm fine, I swear.

For real though, in this world of debauchery this is actually a good thing. With extra appendages this give you more to work with. It's especially great when you're getting gang banged, the extra tools at your disposal giving you an edge

Items

Items may be imported into similar - items, weapons to weapons, clothes to clothes, etc.

Any item alterations and upgrades made will be maintained between jumps and are fiat-backed.

All origins get their 100cp perks for free with subsequent purchases being 50% off, and all other purchases for that origin discounted by 50%.

Building complexes, unless stated to have an in-world location, will be placed near your starting location in-jump for your stay and will be attached to your warehouse after the jump is complete, they can then be imported into future jumps as desired.

Drawbacks

If You Want To Return To Your Old Self, Head South [+0]

You have a past in the world of Jujutsu Kaisen from previous jumps or possibly it's your first time and you're looking to make it a crossover. Regardless, you can now link this jump with any other Jujutsu Kaisen Jumps to continue your story and maintain it in the same world.

Self-Insert [+0]

So you want to be one of the Named characters, huh? Well, if you take the appropriate background, race, and skills as closely as possible, then you are free to go in as any character you would like.

Another Universe [+0 CP]

Do you want to go somewhere else? Maybe there is a games, cartoons, or comics version you would rather go to.

It's All Real [+0 CP]

Now you can include events and canon from other media that includes this setting or its characters, whether this is games, cartoons, comics, or even commercials; it is up to you.

Plot is King [+0 CP]

You may leave any time after the main plot is complete, unless any drawbacks or scenarios are still in effect and incomplete.

Extended Stay [+100 CP]

For each purchase of this, your time here is extended 10 years.

Fan Theories are Canon [+0]

You got some fan theories that you ascribe to or fanon that you want to be canon in your chosen universe? Well, with this you can.

Maybe some of the main characters are secretly evil?

Maybe the entire setting was nothing more than a stage production?

Maybe the bad guy actually has a tragic backstory and is a kind father of three?

Whatever the fanon theory, it is now fact in the version of the Goof Troops universe you're about to enter.

Lockdown [+600]

You have no **Out Of Context** items, powers, or warehouse.

Decisions

You have three choices ...

Go to next Jump
