

Planning and Running a VEX Camp

VEX Masterclass

This VEX Masterclass will guide you through all of the steps of running a camp using VEX Robotics. You will discover the wealth of resources available to you to make planning, organizing and implementation of camps with VEX easy and fun.

This VEX Masterclass is great for someone interested in using VEX Robotics as part of a camp implementation.

Estimated time for this VEX Masterclass: approximately 1 hour

Note: Estimates are approximate, as a self-paced course, individual completion times may vary.

Chapter 1 – Planning for a VEX Camp

In this Chapter you will learn about the resources that are available to help you plan a VEX camp successfully. From tips and tricks for getting organized, to creating a schedule, to using flyers to promote your camp, you will learn about how to get started with camp planning. You will also learn about preparing for the first day of camp, and the special considerations, procedures, and strategies that will help you get your camp up and running smoothly on day one.

Chapter 2 – Running a VEX Camp

In this Chapter you will learn about how to keep your VEX camp organized and running successfully throughout your camp schedule. You will learn about strategies to support virtual camp implementation, and ways to keep students engaged and organized throughout the camp day. You will also learn about in-person camp implementation, and ways to make the most of your students' camp experience in an in-person setting. Finally, you will learn about tips and tricks to support your youngest learners, and considerations for how to create a VEX 123 camp that meets young students' needs and development so that camp is fun for everyone.
