

Vision Statement:

Guiding Student-Athletes to Excellence.

Mission Statement:

That interschool athletics:

- Support the goals of education as identified by Alberta Education and that they be consistent with the philosophy of school districts and with the overall program of the individual schools.
- Provide the best possible educational experiences for students; provide maximum and equal opportunity for all students, regardless of gender, to participate in a variety of individual, dual, and team sports; and will provide for differing levels of ability and interest.
- Be developed to meet the needs, interests, health, and welfare of the students and be governed by the physical, financial and human resources of the school.

Governing Principles:

The high school athletic program is a vital extension of the educational experience, governed by the following principles:

- Leadership and Conduct
 - Athletic leadership must uphold the highest standards of sportsmanship, integrity, courtesy, and fair play.
 - All participants, including students, coaches, and officials, are expected to consistently model these values.
- Voluntary Participation
 - Participation in athletics is a privilege, not a right.
 - Students are encouraged, but not required, to participate in this voluntary program.
- Student-Focused and Resource-Conscious
 - Programs should reflect the needs and interests of students.
 - All activities must remain within the scope of the school's available physical, financial, and human resources.
- Commitment to Excellence
 - Schools should strive for excellence, offering students high-quality educational experiences through athletics.
- Administrative Oversight
 - Principals must take an active and supportive role in the athletic program.
 - Athletics should be viewed as a valuable component of the overall educational process.
