

God's Will to Heal

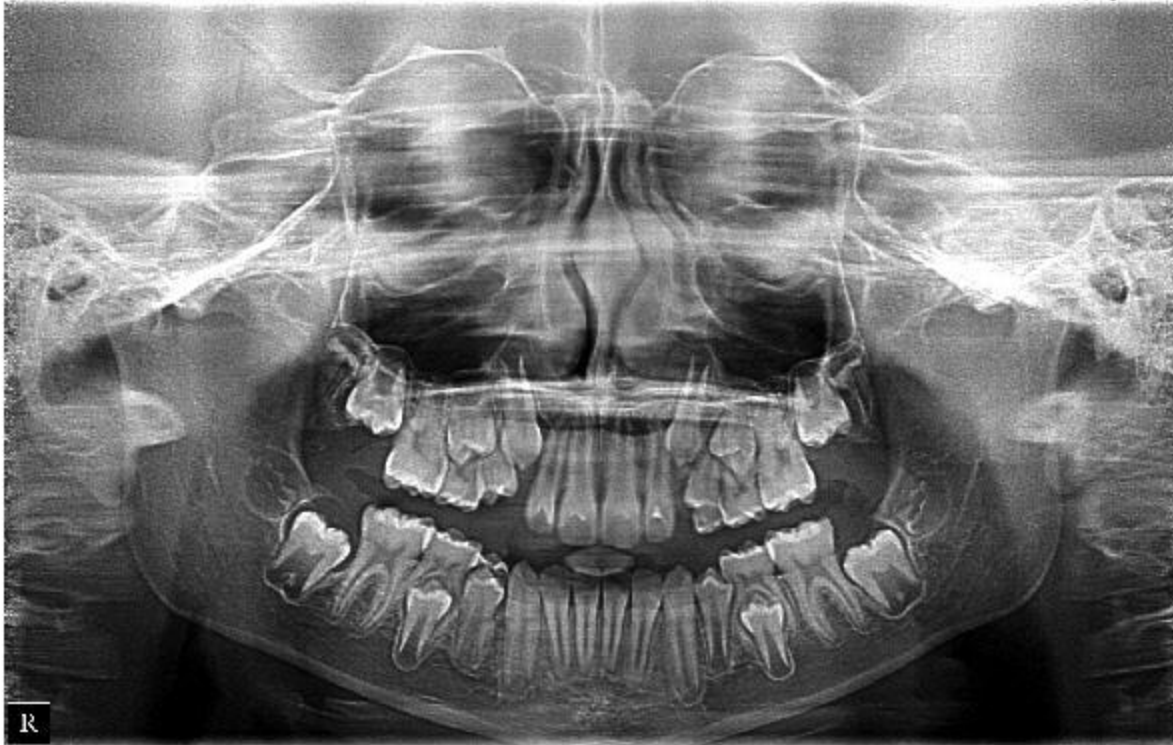

A Personal Testimony

In 2014 our daughter Victoria went to the dentist for a regular check up. On her x-ray he quickly pointed out that she had 2 of her teeth that were fused together. A fairly rare but not unheard of problem. The dentist referred us to a specialist to have the molars surgically removed. See the x-ray image below (bottom left corner) ...

At this same time Victoria was listening to a 20 part audio series by Keith Moore called - [God's Will to Heal](#). She listened to one message each day for about 3 weeks. In the series Keith outlines 30 reasons from the Bible why we believe that it is clearly God's will to heal people today. While listening daily to the series, Victoria's faith was strengthened and as you can see from the x-ray image below she was totally healed!!!

When we went to meet with the surgeon, he described all that she would go through in the surgery. Then he suggested taking another x-ray prior to setting the appointment for the surgery. Upon seeing the results in the image below, the Doctor decided that NO SURGERY WAS NEEDED !!! We even suggested that maybe she had just moved in the first x-ray, but he pointed out that all of her other teeth were "in focus" indicating that movement was not the reason - the original x-ray was indeed accurate. SHE WAS SIMPLY HEALED !!!

Pan Full DR

We would highly encourage anyone and everyone to listen to this comprehensive series on Healing by brother Keith Moore. Even if you are walking in great health today, you know people you can encourage with these truths. Not to mention that it is super smart to build your faith now because when the enemy attacks, you want to be prepared!!

Download the Free Audio series here = [God's Will to Heal](#)

Be sure to download the 4 page PDF with confessions called - [101 Things God Said About Healing](#)

You can also read transcript of the entire series in the free PDF Book - [God's Will To Heal](#)
