

TRUMP ON CNN - Analysis by Professor Toto

Shane Vaughn ——— First Harvest Ministries International

1 watching Donald Trump tonight on CNN was sort of surreal and I'll tell you why and I really hope that you'll hear really hear what I have to say tonight the reason it was surreal because CNN said that Donald Trump would never be back on CNN they said that he would never be on their Network again and there he was tonight on CNN after they said he would never be back on their Network when I was watching it I was reminded of the last three years that we have all been through together and I looked up and I saw on the stage a man that should be over and done with a man that has been through every

2 attack imaginable and somehow he's still standing as a matter of fact he's standing on CNN after they said he would never be back now I want to take you back on a journey that we've all been on whenever Donald Trump disappeared from the White House and we all know that story so many of you watching went through so many different emotions we all did and as time went on and you begin to see things did not happen the way that certain podcasters were promising it would happen by certain dates and certain timelines and certain ways many of you begin to lose faith whether you admit it or not you did

3 and yet the Lord placed an anointing on my life to take a microphone five nights a week in the beginning and now two nights a week to keep repeating to you the truth Professor Toto which is my twin brother has gone live every night Faithfully to promise you one thing that Donald Trump was not over with now we never gave you any of the false narratives we never told you the military was going to reinstate him we never told you that there was a secret plan we told you there was a god plan and we showed you that God plan and we've been faithful to that we have been faithful to that we've been

4 mocked we've been made fun of some of you watching right now have been part of that group we've been ridiculed for believing what God said about Donald Trump but tonight I looked on the stage and saw Donald Trump standing in front of Jezebel because that's who she was Jezebel I saw that Spirit of hatred on her and yet he put himself in that position he walked into the lion's den tonight he literally walked into the lion's den for you you and for me what does Donald Trump get out of it what does he get out of it besides his home being raided for doing exactly what Joe Biden did what does Trump

5 get out of any of this nothing tonight he walked into the lion's den and he did it for you and he did it for me and for this great nation however many of you fail to understand that Donald Trump is returning exactly like Professor Toto told you for two to three years now we have never changed our message why because we know where it came from we told you that he would not come back on the wings of a dove maybe the wings of an eagle but anyway we told you he would not come back with the some other Republic that was being formed and all of that we told you he would return in 2024 Roar 24.

6 and we have never changed that message and tonight I was so proud that we've not changed that message the day after a jury from Manhattan a trump-hating district convicted him or exonerated him of rape thank the Lord even a liberal jury couldn't quite do that they couldn't convict him of rape so they brought up some lesser stuff but of course that'll go away on appeal and then e Gene Carroll will have to pay Trump just like Stormy Daniels did that's going to be

marvelous to watch everything they throw at the man falls here's why he's an imperfect man he's a flawed man he's a man with many

7 mistakes but he's God's man for this moment in America tomorrow Thursday the floodgates of hell will open on the United States Southern border you will begin to see more illegal immigration across our nation you'll watch others illegal immigrants take the jobs of your sons and your daughters and you will then know why God has raised Donald Trump up for America I just want to encourage you tonight we've come so far and this party is just getting started do you know something can I tell you something I'm going to put my glasses on so I can read some of your comments can I remind you of something

8 Donald Trump is the front runner did you know that do you know he's seven points ahead of Biden in the National polls we're talking about a man that was over done with a man that could never ever ever ever return to the White House according to them but we knew all along I told you so I told you so I've been telling you so for three years it's not because I'm smart I'm really not but I know the voice and when you've heard the voice you can ignore the noise when you've heard the voice you can make noise and I everything we told you many of you did not even believe he would still be standing you

9 were looking at the Santos Poor Pitiful you to look at a traitor that's what DeSantis is I don't care if you like it or not great Governor but he betrayed our president he did and many of you are looking at a man that's a lesser man than Donald Trump shame on you come back home come back to the man that Yahweh has anointed for this hour the sand test is trying to take a throne that is not his however it is my prayer that somehow it's all a game and that um you know that the scientist will not even run Dennis Santiago that is a very kind thing for you to say sir I want everyone watching me to

10 know this Donald Trump was not supposed to be on CNN tonight it is destroying the enemy to see him back in their territory with a voice and Jezebel stood there before him trying her best to defeat The Voice and the voice kept drowning her out ladies and gentlemen when truth comes forth lies must lay down Bob that was very kind thank you so much Donald Trump was standing and the enemy's camp tonight and he's supposed to be over and done with he is supposed to be history and yet he's the future you see when God's hands are in something you cannot bring it down Poor Pitiful you you'll be looking

11 they'll be looking back on January the 20th of 2025 saying the same lies and he'll be the president and you will be Vindicated Christine Iachni thank you Bob Tabor good evening my friend I'm here tonight Shelly Deckard to remind everyone of how how Donald Trump is still standing do you know that's not natural you know that every every force of our government has come against him and somehow you're right Kim wentzel Reed the audience loves their president tonight this man is supposed to be over with no other Mortal man could still be standing and there he was standing proud standing strong and

12 notice what he's never done he's never allowed them to change his story they want to I watch some of the Noose pundits after and they're like you know he just needs to maybe say he's thought about this and he's changed his mind then that would make him a liar see the truth will stand when the world's on fire thank you Karen Carruth Catherine Stivers God bless you Stacy Swann good evening Becca Stafford and Ruth Rosario and Vicky Rasmussen never waver that's right Gerald Munn never waver folks Our Moment is about to come why because you the army of the Lord I'll never forget every October

13 Professor Toto has a retreat at Lake Guntersville Alabama many of you have been to that retreat it's going to be this year October the 4th through the 8th if you're not registered it's free of charge no registration fee we want you to come October the 4th through the 8th go register right now at register for tabernacles.com register f o r Tabernacles that's plural.com anyway last year

the lord gave me a theme for last year's Tabernacle retreat it was called a miracle in the midterms and at that moment everybody was believing that was right before the November election for a great Red Wave and

14 we all gather together on the side of a mountain a couple of hundred of us we gathered together every morning on the side of a mountain overlooking the most beautiful Lake you'll ever see we lifted our hands from the north to south the East and the West and ask Yahweh for a miracle in the midterms and I'll never forget the day after the election when we did not have a red wave everybody was so disappointed and I heard the voice of the Lord speak to me and say I gave you your miracle in the midterms and my Cardinal mind was thinking excuse me you gave us a miracle of the midterms and it was

15 then that The Father revealed to me the miracle had we had a red wave we would have had no control in the Congress if we had had a red wave there would be no hearings going on right now there would be nothing being revealed like was revealed at the news conference this morning it was because we didn't get a red way that we took control of Kevin McCarthy we had a miracle in the midterms that we prayed for now I'm saying all of that to say this perish the thought God is not in control and I want to bring it to a close for those of you that are so worried about the voting and the cheat and this

16 and that I want to just would you allow me to lovingly correct you tonight would you just offer me that for one moment what God do you serve do you serve a God that cannot outsmart the cheaters he did it in 2016 did he not but why didn't he do it in 2020 there was a plan that's bigger than you and bigger than me and Yahweh knew that if they would have impeached him he could never run for president again so on January the the day after January the 6th if God would have allowed Trump to return to the White House the Senate and the house would have impeached him for a third time and it would have

17 gone all the way through and disqualified him from ever saving America see God knew what he was doing to love it when you learn that God is in control and he needs you to work for him and you to put your hand to the plow then you don't worry about any of those things Dolores Taylor thank you so very kindly I want to call all of you tonight you really need to share this you need to remind your fellow Patriots it's time to quit doubting and it's time to start shouting it's time to quit complaining and it's start time for you to start dancing in the rain because our moment is here our man stood

18 tonight on CNN in the Lion's Den against Jezebel herself and the people loved it and the polls are turning in his favor remember you were crazy for believing in this day remember you were crazy for thinking Trump would ever return do you not remember those days I do I've got the death threats to prove it when they put Professor Toto all over the news night and day on every left-wing liberal magazine my face was appeared how foolish I was to believe it was even possible thank God we never went down the rabbit trails with you I thank God that we never went down the conspiracy route where we knew

19 from the beginning there would be two terms I want you to go back and remember the moment when you couldn't figure it out and now see how perfectly it's playing out and find your faith again and a God that sets up Kings and takes them down and a God that raises up Nations and brings them down if you'll find your faith you'll lose your fear good night everybody
