Connecting a Chromebook to WiFi
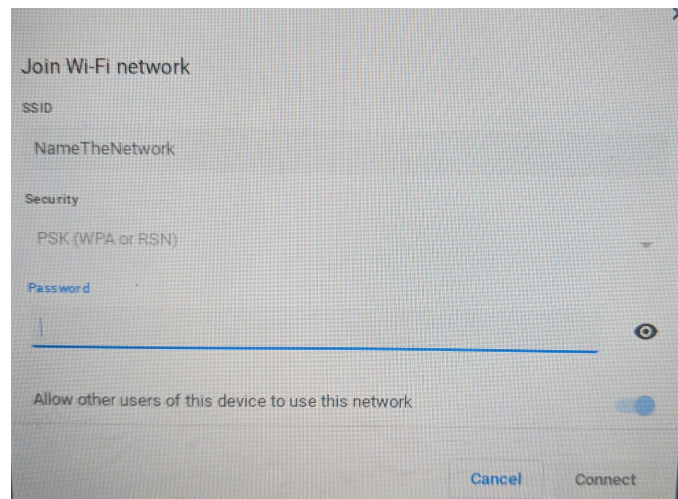

|	
1. Click the clock section at the bottom right of the screen	
2. Click 'Not connected'	
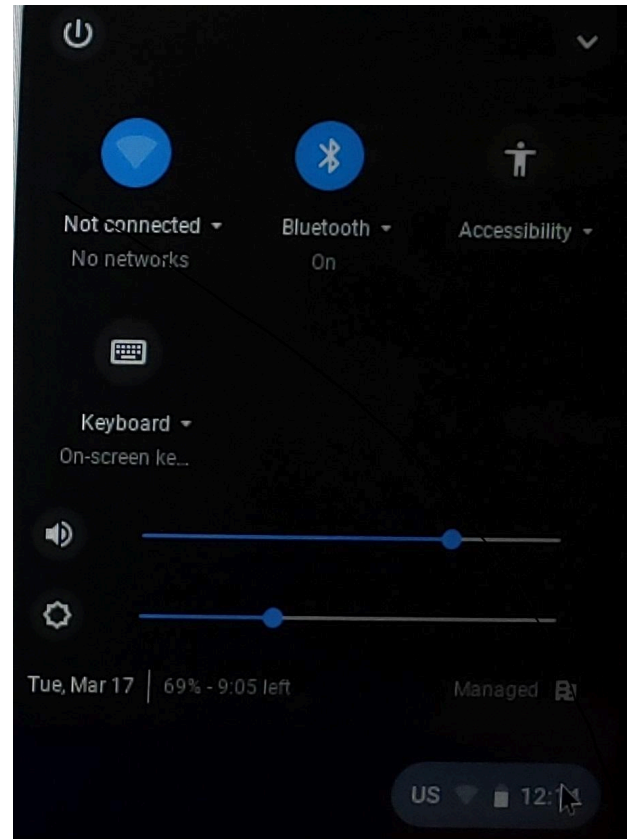

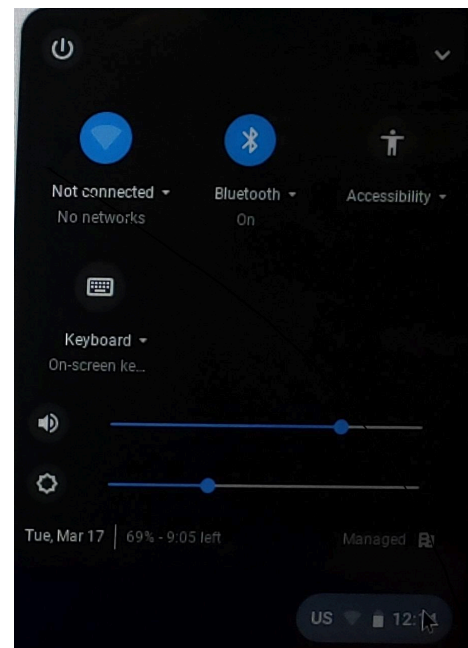

3. Your Chromebook will automatically look for available networks and show them to you in a list.

   a. Select your network name from the list

4. Enter the password for the WiFi connection
5. Click 'Connect'
6. On the login screen enter your @teamstudents.org account name

7. Enter your Google password

8. Click '**Next**'
9. Then, you should be all set to access your child's Google Classroom!
