

Sam & Johnny HB17 Sleep Headphones

Redefine Your Sleep Experience

In today's fast - paced world, achieving a good night's sleep has become a luxury for many. Constant noise pollution, ranging from traffic to snoring, disrupts our rest, leading to fatigue and decreased productivity. Recognizing this global issue, Sam & Johnny has introduced the revolutionary HB17 sleep headphones, designed to transform your sleep quality.

1. Unparalleled Comfort for Uninterrupted Sleep

The Sam & Johnny HB17 features an invisible behind - the - ear design. Engineered using data from millions of ear shapes and refined through countless adjustments, it offers a seamless fit. The **3 - layer lightweight structure, composed of soft silicone, noise - canceling foam, and a sound guide tube**, ensures the lightest and most comfortable wearing experience. The food - grade liquid silicone earbuds are not only **100% gentle on the skin** but also breathable and antibacterial. Certified by professional antibacterial tests, they can effectively inhibit the growth of bacteria such as Escherichia coli and Staphylococcus aureus, **with an antibacterial rate of up to 99%**, providing a hygienic and irritation - free solution for extended use. Weighing just 4.6g in total, with the contact point between the earbuds and the ear weighing a mere 0.25g (at least 10 times lighter than most other earbuds on the market), it offers a **"zero - gravity" feel**, allowing you to sleep without any sense of burden.

2. Superior Noise - Blocking for a Quiet Oasis

Say goodbye to external distractions. The HB17 headphones use triple - layer noise reduction technology. Sound - absorbing ear tips, in - ear isolation, and white noise work in harmony to block up to **30dB** of external noise, creating a quiet and private sleep space. Whether you're trying to sleep through a noisy city night or a snoring partner, these headphones will help you drift into a deep slumber.

3. High - Quality Sound for a Soothing Sleep

Equipped with **two 3mm high - end balanced armature drivers**, the HB17 is tailored for sleep. Whether you prefer soothing music, white noise, or meditation sounds, it delivers crystal - clear audio, turning your bedtime into a peaceful and relaxing experience. It's the perfect sleep companion that transforms sound into a lullaby.

4. Smart Features for a Modern Sleep Experience

- (1) **Bluetooth 5.4 Connectivity:** Enjoy automatic pairing and a stable connection with devices up to 10 meters away. No more interruptions or lag, allowing you to stream your favorite sleep - inducing content seamlessly.
- (2) **Touch Control:** Simple one - touch controls enable you to manage daily functions easily, even with your eyes closed. Pause/play by double - tapping, answer/end calls with a single - tap, and adjust volume by triple - tapping (left for volume +, right for volume -).
- (3) **APP - Driven Experience:** The dedicated app offers a range of features. Customize sound frequencies with EQ settings for different music styles like pop, classical, and jazz to match your preferences. Dive into a rich white noise library filled with options such as rain, ocean, and forest sounds to suit your sleep needs. And never lose your headphones again with the earbud locator function, which shows the last known location of your earbuds and their current distance, and can trigger a sound alert.

5. Advanced Hygiene Features

- (1) **Antibacterial Earbuds:** As mentioned, the food - grade liquid silicone earbuds are highly antibacterial, ensuring your ear health is always protected, especially during long - term use.
- (2) **UV - Disinfected Charging Case:** The charging case is equipped with an advanced UV - disinfection function. Each time you close the lid while charging, the built - in UV lamp

automatically turns on, comprehensively disinfecting the headphones. It can effectively eliminate the bacteria adhering to the surface of the headphones. Certified by professional tests, its antibacterial rate is as high as 99%, ensuring clean and hygienic use every time.

6. Long - Lasting Battery and Practical Design

With a **5 - 6 - hour continuous playtime** and a **450mAh charging case that provides 3 extra charges**, the HB17 ensures you're never left without your sleep aid. The Type - C charging port adds to the convenience, making recharging a breeze. Its **IPX4** - level waterproof design can withstand daily moisture and sweat, ensuring durability.

7. About US

Natural Sound Electronics Co., Ltd. was founded in 1999, specializing in the research and production of intelligent products, including tablets, smart speakers, robots, headphones, Hi-Fi players, and more.
