

RCJ Soccer - Newsletter 04

We hope you enjoyed the first full day of competition. You had to play a lot of matches, got to exchange ideas with other teams at the poster and some of you got to get detailed information on other teams' robots in the group interviews. Enjoy the Junior Party to decompress from all that and get ready to do it again tomorrow.

More Interviews

If your interview wasn't today make sure you set an alarm for tomorrow or saturday (see [interview schedule](#), select tab "Interview schedule" at the bottom) to make sure you don't miss yours.

Newsletter Easter Egg

If you are actually reading this newsletter we'd like to know. So if you come to inspections tomorrow and mention that you would like an Easter Egg we will give you one.

Round 5 Schedule

Rounds 5 through 8 will be played tomorrow. This will conclude the swiss system phase of the tournament and the first four places in the resulting rank table will move forward to the semifinals. Two finals will be held after that: the Grand Final that determines 1st and 2nd place and the Small Final that determines 3rd and 4th.

SuperTeams

With the closing of the first day of individual games, we now have an approximate ranking for the teams to generate (hopefully) evenly matched SuperTeams. Please see the 3rd spreadsheet page (tabs at the bottom of the document) in the General Schedule / Interview Schedule / SuperTeams Document to find out your SuperTeams' members.

SuperTeam Table Assignments

To make life a little harder on everybody we have changed all your seating assignments. Please find your new table tomorrow. But we have a good reason for this: We are making sure you sit next to your SuperTeam teammates to make it easier for you to work together for the SuperTeam challenge.

Rules Discussion Panel

We want to use your fresh experience right after the big tournament to discuss ideas for changes and improvements to RCJ Soccer. If you are interested or have ideas on how Soccer should evolve for the future meet us for a discussion in the glass room in the New Era building. We will have this path signed with arrows similar to the interview room and there will be letters in the window of the room that you can see when you exit the Tech Dome and turn left.

Questions? Suggestions? Other feedback?

If you have general questions please ask them on the forum (junior.forum.robocup.org) so that everybody can see all questions and answers. If you have questions very specific to your situation you can always email us at robocupjunior-soccer@robocup.org.
