

OH WHOOPS. I ALSO MADE A NEW COPY. GET FUCKED. VANDALISM IN THE BIG 2025

ALSO I MADE SURE THIS ONE HAS NO EDIT RIGHTS SO DON'T EVEN THINK ABOUT TRYING AGAIN

This document contains mentions of several sensitive topics. This includes racism, fetishes, erotic roleplaying and even virtual child exploitation.

NEW SECTIONS DROPPED. THIS IS NOT A DRILL.

Informal tone aside, we are administering this document again as Slush has seemingly been unblocked for whatever reason, with absolutely no consequences. Not only has it been posted on the EJT wiki's forums, but there are also efforts to make it extend to other EToH-related social spaces to spread awareness about this alarming situation.

- This does also mean that *Eternal Joke Towers* as an entire wiki should be held accountable at this rate, as its staff directly helped Slush out by unblocking her and sweeping stuff under the rug. The fact that people who've seen her dark side firsthand are *just now* switching up and pretending that this was all one itsy-bitsy mistake is simply appalling, and that should be recognized.

If you are absolutely sure you remember everything, skip to Segment 6 as this document has indeed changed to accommodate several recent turns of events.

Furthermore, Slush has been doing even more contemptible things, as seen in Segment 8. Completely tearing apart my group, getting the document vandalized, whatever...clearly, she's not just disruptive; she's out for my blood now. But somehow I'm the one who can't properly resolve a conflict? Despite 60 pages of clear documentation and her being clearly responsible for almost all of it?

In any case, I'm not just going to deploy this document on the EJT wiki. No, I'm going to do it in as many EToH-related spaces as possible. (That explains how you got here if you don't frequent EJT.) So...let's see you come back from that, if you think you're so mighty and can just...get away with everything.

Style guide (why does this exist again)

1. Descriptions of each event should not include sentences rambling on the moral depravity of certain incidents, it will be included in the video script anyway, or include unnecessary transition segments.
 - a. Extra context is allowed
 - b. **Hey, that bump is shaped like a video!** (but yeah the video is never coming out gg)
2. Each event should be described in detail (usually 2+ sentences depending on nuance), although if the event is explained in less than 2 sentences it's fine

3. Each event should have relevant picture evidence with little to no inference required. Evidence is also required for context. Link back to previous evidence if possible.
-

TEXTUAL SYNOPSIS

Red = NEW ADDITIONS! YAY!

This is not an invitation to skim over the document and immediately extract a shallow takeaway, by the way. You should actually try if you've got something to say. *Especially* if you're one of Slush's cronies.

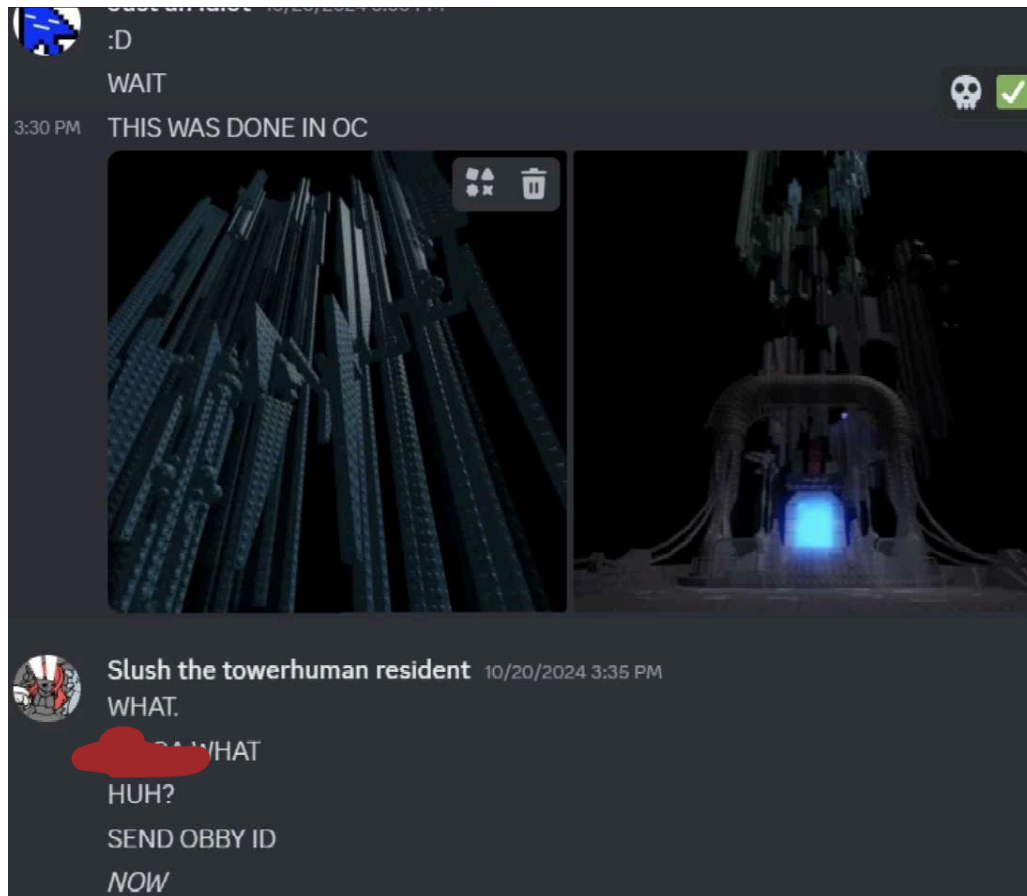

1. **Racism** - Slush has expressed potential racism a few times, such as saying the N word without being black (yes, she revealed her hand, and she was white) or wanting to yell several racial slurs at another person because it would be "worth it" somehow.
2. **General Depravity** - Slush is really, really bizarre. Also, she actively participates in a community that seems to be overrun by similarly corrupt and perverse people, allegedly having numerous roles in a certain server and all.
3. **Oatmeal** - A server known as "the Oatmeal server" was one of Slush's go-to communities for being—again—weird as hell. On top of making numerous sexual jokes around multiple people—some of which aren't of age—and also making a character with a sex joke despite them (probably) being a minor—one roleplay Slush did was blatantly erotic in nature, and involved said presumably underage character. **The character's exact age is a complete mystery, but if she has to hide it behind question marks, it probably isn't a big number.**
4. **Character.AI** - Slush does extremely fucked up roleplays. Not only does she bang basically every bot she runs into, but sometimes she does things like drowning someone. Knowing her, she was probably into that. Not to mention buzzwords like "daddy" or "master" or whatever...
5. **Other Remote Servers** - On top of the Oatmeal server, Slush exists in other servers, where she's allowed to be as perverse as she wants.
6. **Grooming Finnaly** - Last but ABSOLUTELY NOT LEAST, Slush has groomed a person named Finnaly who is 3.5 whole years younger than her, slowly corrupting his mind. Not only did he start fighting for Slush's cause tooth and nail, but he slowly became perfectly fine with Slush constantly showing off her libido. Slush is also proud of getting Finnaly to "simp" for her characters, and frequently sent him numerous images that are potentially suggestive or even completely explicit.
7. **No Remorse** - After using a third party to indirectly speak to Slush, we know she's shameless after all this time. She also ignored questions entirely after a certain point. She's *also* used Finnaly to leak our own GC, including things that *would've* ensured our collapse if not for rebuttals.
8. **Awful Rebuttal** - Usee/TneEnchantedPokemon/whatever you wanna call him tried to make a response thoroughly defending Slush. It sucks and doesn't even make sense; he called OVER 50 PAGES of evidence "dumb," he said that Slush somehow *didn't* groom anyone, and so on.

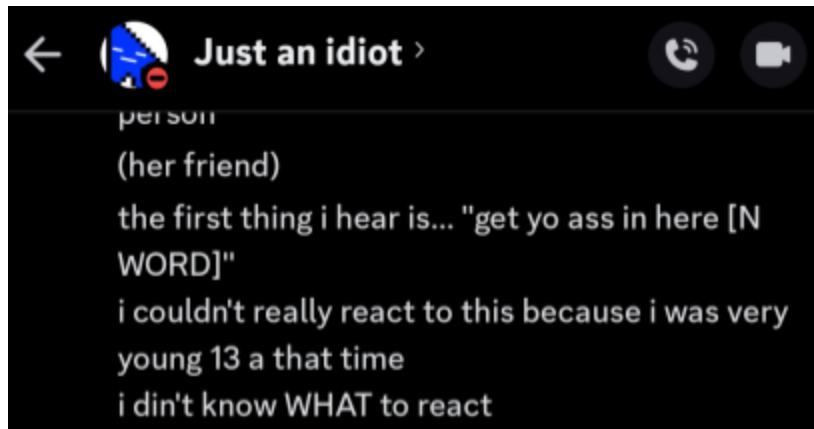

9. **Malice** - Slush has coerced Bruhshard1/FranticErrors, *knowing* how pivotal he was. Finnaly also vandalized the document exposing her. This is just proof that if she's going to have opposition, she'll put it through hell for no good reason. Not happening!
- a. Why did she get Finnaly to vandalize the document? It's almost like...she knows it'll be over for her if the word gets out! And guess what? IT DID.

● PREAMBLE: RACISM

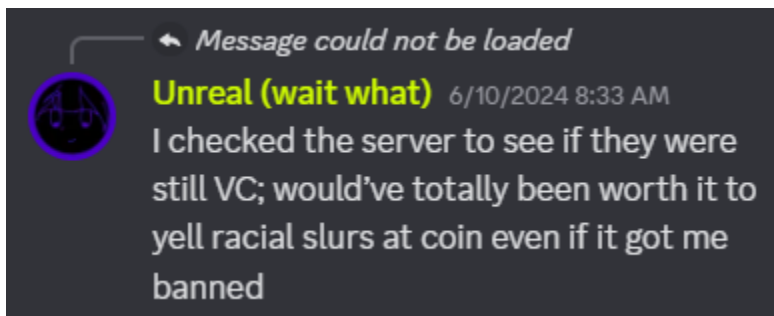

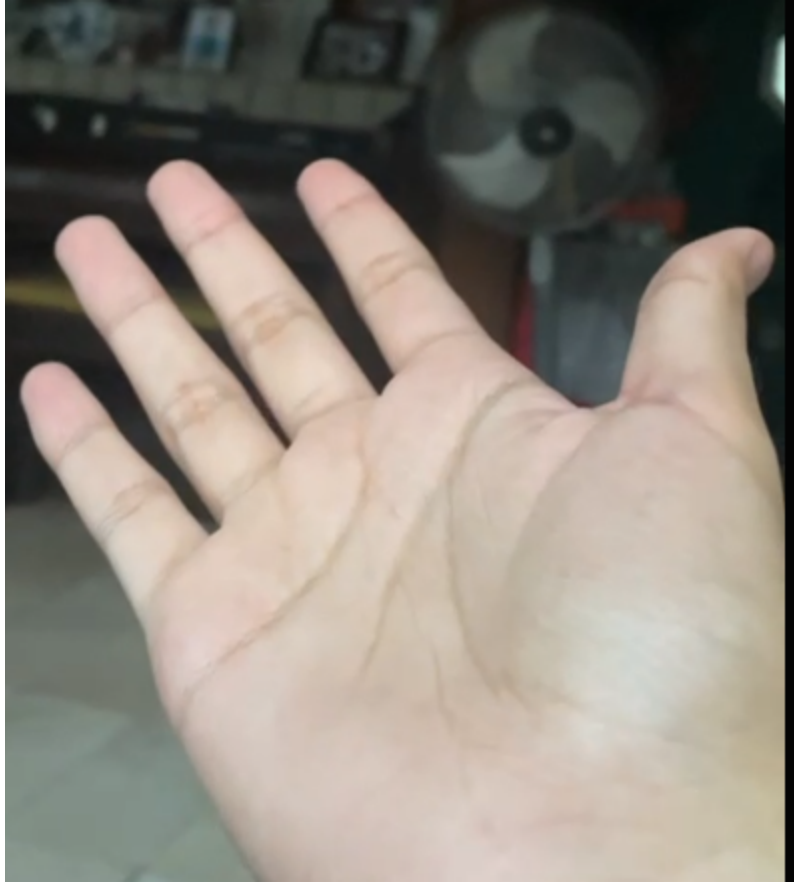

Kicking off, we have slush saying the n word and a few mentions of her basically liking racism. (and hand reveal to prove that she isnt black)

Here's proof:

Of course, Slush is not black.

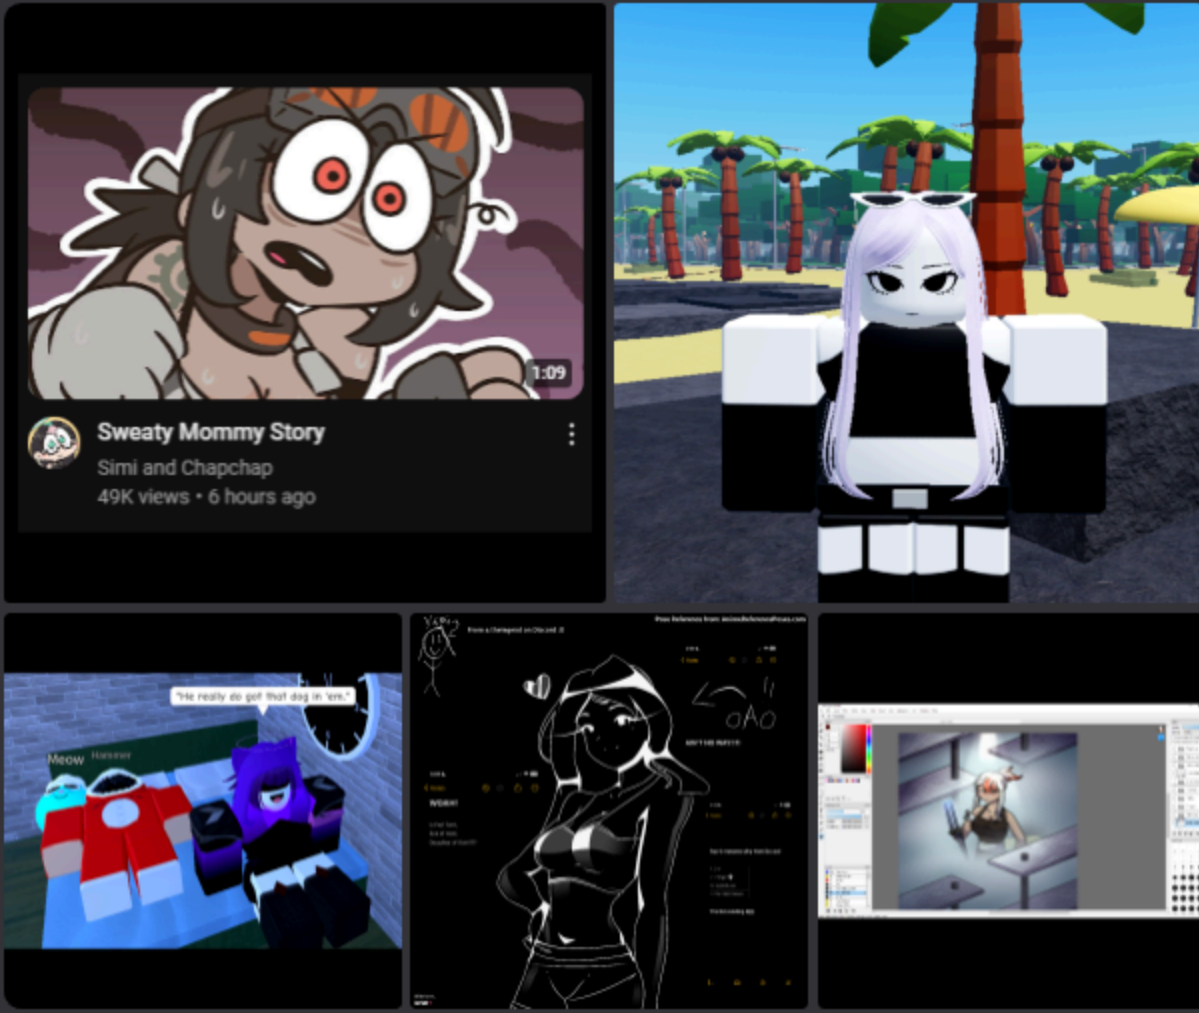

● SEGMENT 1: GENERAL GOONER BEHAVIOR

Old S1 is no more, because admittedly *that* was way too flimsy. Some screenshots were at least kind of damning but those are just fused to this segment now.

they let this shit in the server 🥺

Anyways, in these few screenshots we can see slush outright doing a pedophilic/grooming erp. On another note, both of the characters are HER.

ToVH-Chan wraps her arms around Paige's neck and goes in for a nice kiss on the lips.

It feels a bit sloppy, but heartfelt; despite ToVH-Chan not knowing Paige, she figures that she might as well show that she cares.

Meanwhile, Paige is currently trying to process all of this, and has her eyes wide open in utter bewilderment.

Though, after a moment, Paige closes her eyes, and leans into the kiss a little.

This interesting feeling comes by to indulge you, if only for a moment.

● SEGMENT 5: RECLAMATION, REVENGE AND REMORSELESSNESS

- **Reclamation:** Taking back Finnaly.
- **Revenge:** Getting Finnaly to leak confidential images, potentially to end us once and for all.
- **Remorselessness:** No grief shown, no apology, nothing. Slush has no regrets.

Commentary will indeed be provided for this segment; not only is it necessary to walk you through some of these screenshots, but there quite clearly isn't going to be a summation in video form any time soon. This is the only way really.

Slush is not sorry at all, even if it might have previously seemed like it. She has said so by herself, after we used a third party (to prevent harassment, information will be redacted) to indirectly speak to her regarding what she's done after being unblocked in July of this year.

Give them a simple reply back,

"I came back because I could, and for no reason in particular. I've had the opportunity to rejoin the server for months at this point, but only recently came back out of boredom and wanting to make things in the EJT again. Your fight dissolved slowly, and will continue to; Finnaly's out from your side. Right? Him regularly DM'ing me like he used to and him interacting with an unrelated friend of mine in a GC should say as much. This situation doesn't need an apology, because the people that care most about this situation aren't there for the apology, but to see me fall. Everyone else on the other hand is fine with compromising, and just letting myself be so long as I don't make the same mistakes I did before."

none of the questions have been answered
i won't say that though
i'll leave this up to you

cosmo man 7/4/2025 6:19 PM
because she could
BECAUSE SHE COULD
BECAUSE SHE COULD

Pay attention to the “this situation doesn’t need an apology” part. That is the largest takeaway.

She has also reindoctrinated Finnaly, and has even been using him to leak confidential images of ours.

Also, she might have even been plotting to use the images to expose and permanently exile *us* instead of her. Now *that’s* a claim without evidence, but knowing her...it’s plausible.

(Of course, counterarguments are going to be provided. In other words? THAT’S NOT GONNA WORK!)

Uhh...

Ahhh right. She spoke to the third party a second time! (These next screenshots will chiefly refer to a different document from this one, by the way. Said different document was for her and only her to read.)

Seriously, think about it. She said that she was bored and wanted to return to EJT a week or two ago, so why is she suddenly back to saying there's nothing left for her? She seriously must stop flipflopping. And yeah, if she's already bored, maybe she *should* take the block and leave!

Now you're just flipfopping from "this wiki is boring" to "because it's COOL!" in a whopping 5 minutes

You can't make this up 🤔🤔🤔🤔🤔🤔🤔🤔

Yes. Yes we do think she has a grandiose reason behind her back.

Honestly...it's too late to say sorry. She was already doing things on too large of a scale to forgive, but now that she's been completely shameless all along?

Her dishonesty and lust has thrived for long enough. *Clearly, she's really back so she can groom others, instead of having any truly positive intentions.* Because if she did return with benevolence in mind, she'd feel a pinch of remorse AND actually try listening to a word of ours.

She's lost our trust for the last time. She can only leave.

● SEGMENT 6:NICE TRY, BUCKO

This is the only segment thus far to not be intended as a direct exposal by any means, but rather a cohesive refutation of several points that Usee (named "nothing" in the screenshots) made in defense of Slush.

Also, the first person is going to be used to refer to Cosmo. That will also apply to all segments succeeding this. Because he is, indeed, ME! Buckle up.

Short answer: This response fucking sucks.

↗ Forwarded

Okay essentially they know what they did is bad, they feel bad for it, they've apologized to the people, they accepted his apology, they've interacted with slush ever since and haven't been weird or said anything weird to each other, or anything like that whatsoever, and slush didn't want to give you guys an apology

Slush also isn't racist, and the context of the image I sent you was toward a pedophile. I did still tell slush to not say anything racist or to not threaten such.

For the C.AI and rps, that's not a problem only if not directly shared to anyone of an age gap, and to people that aren't comfortable. Other than that, this isn't a problem, regardless of what's said you can't cleanly convince someone. And they don't usually use C.AI that much any more really, and they don't accept rps with others now, so they don't really do it that much

This is the same with their polyamorous relationship. There's not much of a clean slate. I'm a Christian too, I know the values and I know clearly it's wrong, as well socially, but in comparison there's not much of harm, if everyone is fine with the relationship and it's healthy. Also Slush is 17 so who knows, this could change. But regardless, I don't think this is as serious of a problem, even if it's unusual.

Also slush didn't groom Finnaly, although I won't deny the messages were awkward. Nonetheless, they don't interact this way anymore, and just in general to others. They keep it to themselves.

So that's the whole idea

Long answer:

“Okay essentially they know what they did is bad, they feel bad for it, they've apologized to the people, they accepted his apology, they've interacted with slush ever since and haven't been weird or said anything weird to each other, or anything like that whatsoever, and slush didn't want to give you guys an apology”

First of all, I'm still confident she owes us one. But also, where the hell is this apology? Don't try to hide it from me or anything, because I'll just take that as a green light for assuming she, in fact, didn't apologize. That cocky response I initially got from her should say about as much.

Also how can one be sure that she doesn't have some complex evil plan? I can't be told that the way she speaks to Finnaly is suddenly going to be perfectly clean. The same goes for others. Just because she hasn't made sex jokes for the past 3 days doesn't instantly mean she's pure of heart.

- **NOTE:** Now that Segment 8 is a thing, there definitely is some plot.

“Slush also isn't racist, and the context of the image I sent you was toward a pedophile. I did still tell slush to not say anything racist or to not threaten such.”

The n-word in question:

Before you say she was mad and not thinking straight, I don't think being impressed by an Obby Creator build would elicit a strong enough reaction for one to yell a racial slur.

“For the C.AI and rps, that's not a problem only if not directly shared to anyone of an age gap, and to people that aren't comfortable.”

Really? If they were so isolated then how did we manage to dig them up? If she was truly secretive about them, they would be nowhere in this document. Maybe a mention at best, but definitely not a whole section with screenshots about them!

(I seriously doubt we found them in a server that was actually exclusively 18+ either, especially since you did say Slush herself is 17 anyhow. So can that argument too.)

“regardless of what's said you can't cleanly convince someone.”

Too bad. I'll sure as hell keep fighting. You're *funny* if you think I'm going to say that Slush is benevolent and never did anything wrong at any point within 20 years.

“This is the same with their polyamorous relationship.”

Since when? How does that tie into Character.AI roleplays?

“Also Slush is 17 so who knows, this could change. But regardless, I don't think this is as serious of a problem, even if it's unusual.”

Shamelessly chatting up minors like this is a serious problem. Rambling about depraved, carnal things at every twist and turn is a serious problem. Grooming Finnaly to the point of wanting to have intercourse with you in a condo game is a serious problem. *Saying that you don't regret anything to **our very faces** is a serious problem.*

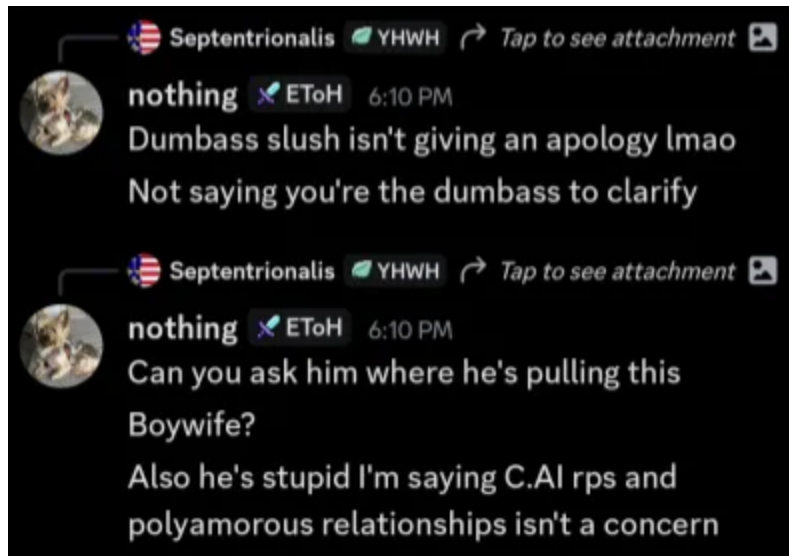

“Also slush didn't groom Finnaly, although I won't deny the messages were awkward. Nonetheless, they don't interact this way anymore, and just in general to others. They keep it to themselves.”

Seriously? Trying to turn him into a boywife for (YOU KNOW WHAT REASONS) isn't grooming? Making him simp for your hypersexualized characters isn't grooming? Making him want to fuck you in a condo game isn't grooming? *And convincing him that you're still on the right side of our community's history after all of **those** actions isn't grooming?*

“So that's the whole idea”

The whole idea in question sucks and I'll even say that you were better off giving up than making this insanely shallow response that doesn't bother dissecting the allegations at all.

Mic drop.

Well YOU'RE the dumbass for saying that Slush is innocent, even after she's done all of THIS without showing a single ounce of denial or remorse. And if there's no apology, then she's not sorry. So it's about time for you to admit she indeed has no regrets.

3/11/2025. That's before Finnaly even had a chance to defect and return to Slush, so...not like he was trying to set off a chain of events that tarnish our image via made up claims, either.

So yeah. Slush did want Finnaly to be her boywife.

Also he's stupid I'm saying C.AI rps and polyamorous relationships isn't a concern

1. If I'm stupid then you're even stupider.
2. If the C.AI RPs are innocent by all means, then how did we dig them up?
 - a. Obviously they can't be completely isolated. Because we found them.
 - b. Can't be in the "right space" like an 18+ server, as Slush is 17+. Thus, it was probably in a server made up of minors.
 - i. If Slush lied her way into that "right space," we would've pussied out trying to infiltrate anyhow because it's 18+ (SCARY!!!)
3. When I criticized the mention of polyamorous relationships I was talking about how irrelevant they are to this drama. Is Slush even in one? When did I mention any romantic relationship? Sure Slush made potential advances on Finnaly, but POLYAMORY? SINCE WHEN???

nothing EToH 9:03 PM

I mean it's fine if they don't like slush

The problem is how persistent they are in wanting to see his downfall

They're too stuck in the past which I can understand but it's not healthy

Because the extent is not rational

Am I suddenly the one who needs to head up for the psych ward or trash their PC? How come? I'm not the one defending someone who groomed some guy 4 years younger than themselves.

You should probably drop the "healthy" speech by the way before it delves into Psych2Go territory, or even full therapyspeak. That doesn't sound appealing, does it?

Well, you weren't supposed to hear that part...ah, fuck it, I'll tell you anyway. See...eventually, you'll tell me to get off the internet and get help, so I'll just say it. **Hell nah.** I can't, for one, but even if I could at any moment, I don't owe the world my erasure just because I dunked on a remorseless savage. Nor does that necessitate a PsYcHoLoGiSt In My ArEa.

So what if this fixation is messing with me? I'd take so-called "craziness" over giving her free rein. But you get the idea; I can even deflect the "you should leave forever and seek professional help" argument. You haven't even used it, but I already foretold that you would! I really do know your type.

(P.S. If you show Slush this part too and tell her to give me unsolicited life advice, I might genuinely burst out laughing in real life. There's something inherently humorous about someone this messed up suddenly attempting to be mentor material.)

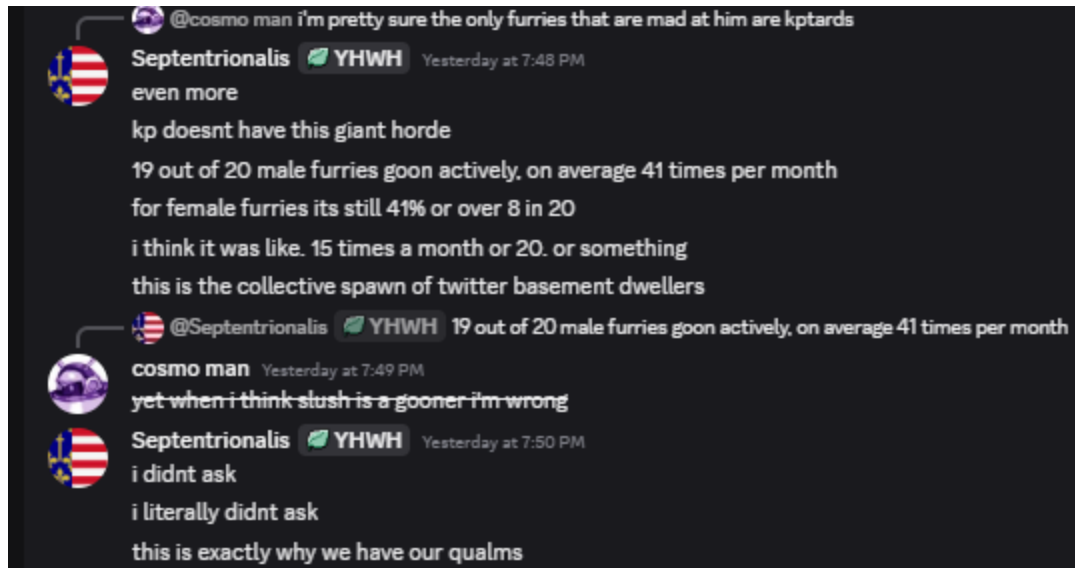

● SEGMENT 7:DEFECTS

This segment is less about Slush and more about...ah, people I thought I could trust. Let's just say that.

Slush took Frantic away too. Not sure how, but she did it. He was the same person who cheered us on and supported some of our operations UP UNTIL this month. His unhelpful contrarianism was noticed some time ago anyways, so it's not like it's truly over for Slush's opposition. But still...this proves that Slush really does have a zillion "gotchas."

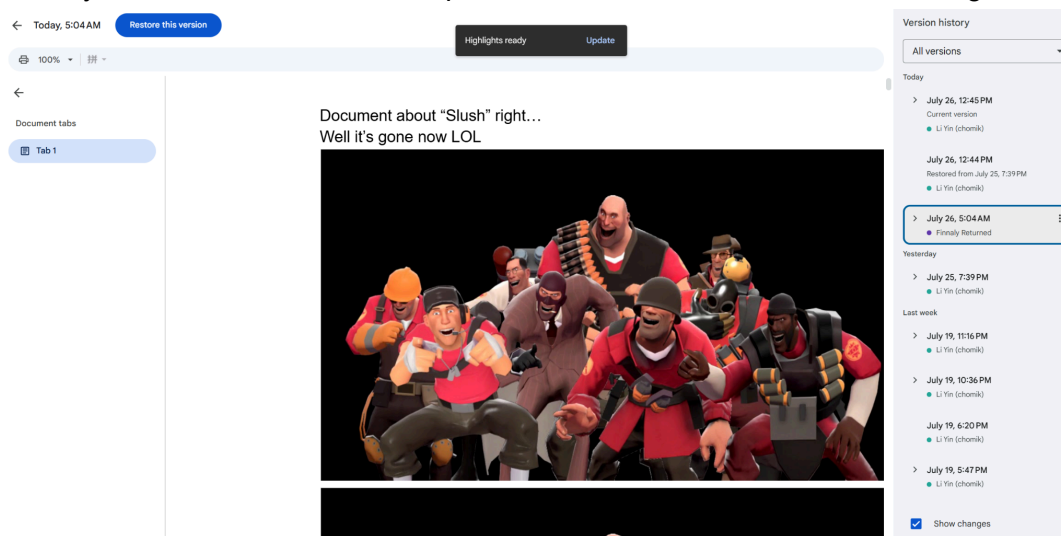

He definitely couldn't have left out of his own volition; this is literally the *exact same month* he started pushing the document out via a necropost. Slush or someone else basically had to have done something very quickly within a few weeks. That's the one theory that adds up in my head.

Also...he believes 95% of furies are fetishists, pedophiles or otherwise degenerates in the same breath? That carries some interesting implications, because last time I checked 95% of furies aren't worse than Slush. So surely he thinks that Slush is some weird exception if he's suddenly on her side. (Not Slush as a furry, because she isn't one. But Slush as a "bad person.")

What? He never said any of that? It's called inferring, pal. Just because you didn't say an argument *verbatim* doesn't mean you never meant to say it. And if I only need one paragraph to break my core reasoning down for you, I doubt it's goofy mental gymnastics either.

But hey, even if he isn't...this next part is a thousand times more concerning.

She also got Finnaly to vandalize the document! Too bad that's never going to work. Because...

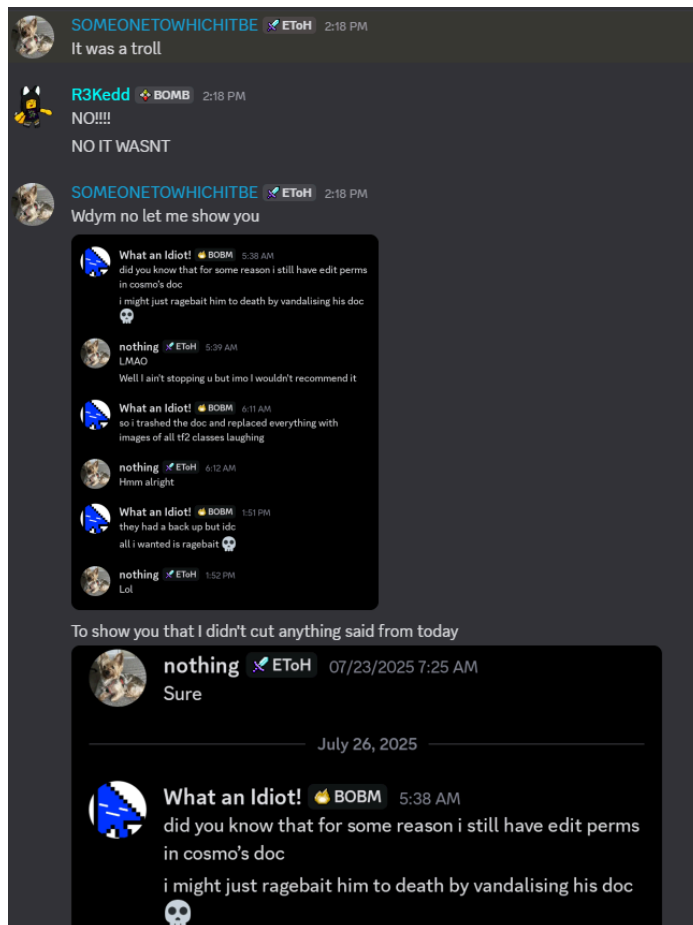

1. Version history exists.

2. I somehow got locked out. Too bad there's a "make a copy" feature amirite???

This isn't getting me to stop anything. In fact, it's giving me more ammunition for how desperate Slush and her type is. Thus, the fire's only further fueled. If I didn't have a reason to hate her...well, there you have it.

In fact, the fact that she needed to try and get someone to bury the document with vandalism instead of refuting anything probably proves every single accusation. Because if they really were flimsy, she'd actually put up a fight.

(In other words, the vandalism occurred because Slush's team **knows** they're running out of luck.)

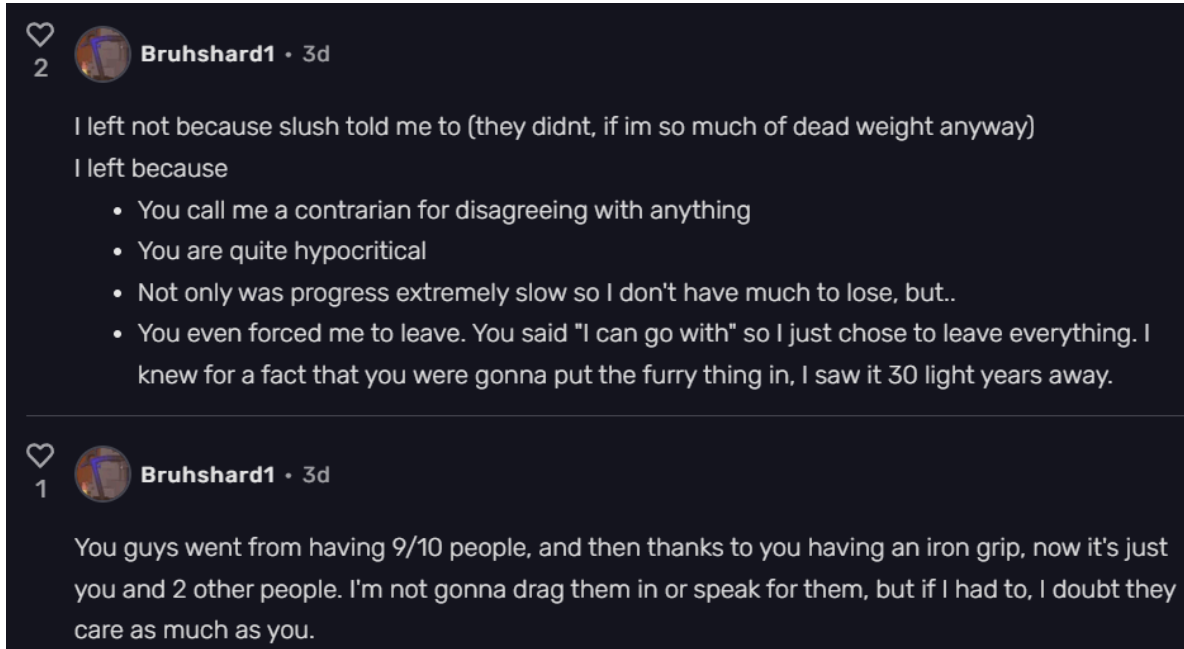

Most ragebaiters don't casually destroy a whole document about legitimately serious topics. Most ragebaiters don't do all of that to 60 pages of legitimate evidence.

Think about it. Finnaly is regularly talking to Slush again. Probably back to *best* friends already. Combine that with the magnitude of that shit he just pulled, and yeah...it's obvious that he's lying about "ragebaiting." You can tell him that it's okay! He can admit that he just wants to shield Slush!

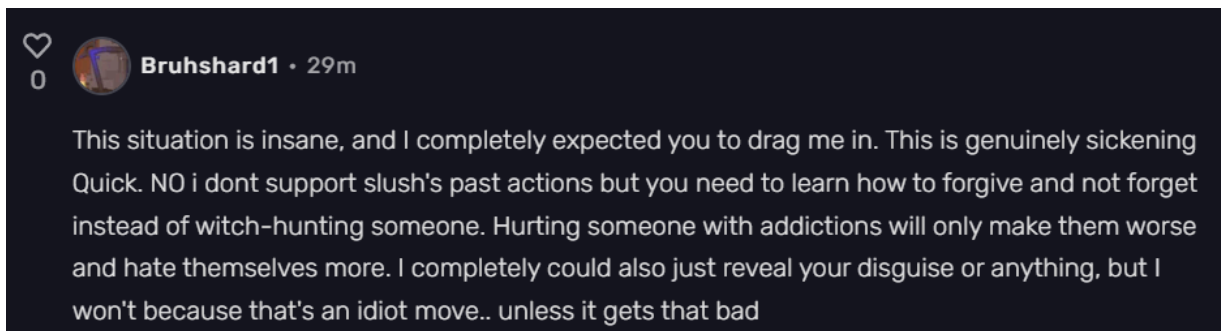

Alright...back to Frantic. This time, he's really angry. Thus, he ranted in a series of FANDOM replies.

Too bad all of those replies aren't bringing me down.

- You are a contrarian. Stop denying it. You disagreed with everything, not just anything.
- How am I hypocritical, buddy?
- Maybe it was. But is it slow now? Exactly. (Don't think you can stop it, either.)
- I told you to leave because I was done with your shit. Simple as that.

As for 9/10 to 3/10, that wasn't because I was some contemptible tyrant. That was because most of the departing people did so because they *really* had other things to do, or some other reason that I had no say in. Be honest, did I wrong Fometump? Did I wrong Admorr? Did I wrong Mathias? Doubt it. The only two real defects out of our group are you and Finnaly.

Probably because I don't exactly like people who double cross.

And also, if you think all of this can just be...left behind? You're either the sickening one, or just comically stupid. Also, do you think I made Slush depressed or something? She's still so confident in herself that I actually want to put holes in a wall over it.

Also also, if you'll seriously reveal any quirky identities of mine just to get back at me yet again, know that you'll only prove your spitefulness even more. You don't want that, do you?

Also, ALMOST???

Explain what part ALMOST isn't? This wasn't a betrayal but it was me realizing that you guys literally choose to do the things you do and I simply can't.

Also, this entirely is just my side, so if it isn't true then cosmo fed you straight slop

random fact: for SOME REASON the guy
slush groomed decided to go back to her
side and leak stuff (edited)

•SEGMENT 5:GROOMING

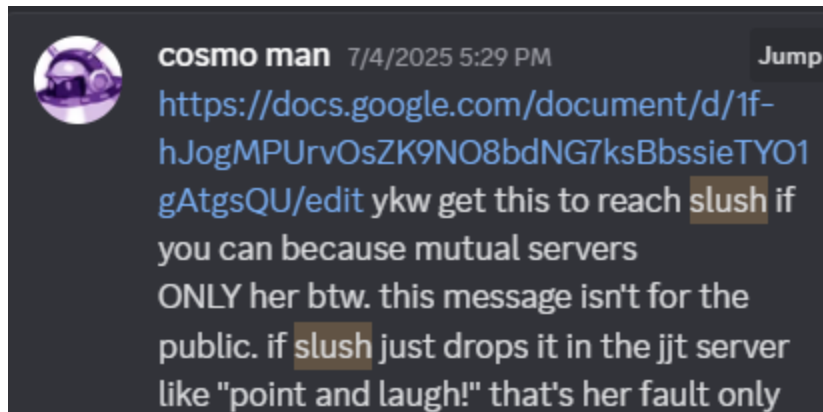

Finnaly sure as hell wasn't like this before.

Let's start off with the fact that Finnaly and Slush have a 3.5 age gap between both of them.

**WAKE UP SLUSH GOT
UNBLOCKED FROM JJT**

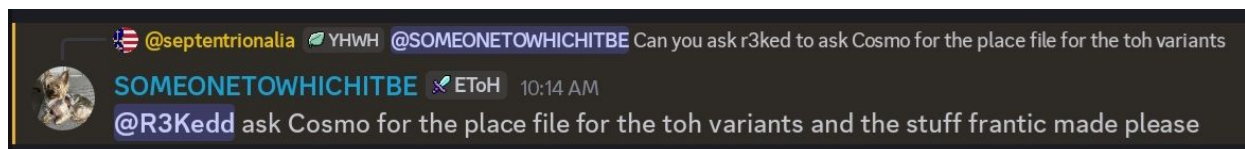

I only got R3Kedd in on the whole operation this month. It only took 2 days for her to be on board. I don't think I have the indoctrinating power to entirely gaslight someone in 2 days.

Also yes I know I leaked Melting Slush 3, (basically a back and forth I tried to have with Slush) but it's not that deep. Not much different from leaking a...gulp...p-private conversation!!

Also, with that document, now you guys know I actually tried to give Slush some form of a chance. Which she refused, honestly. And uhh...now we're here, because she wants to cling onto this wiki so badly.

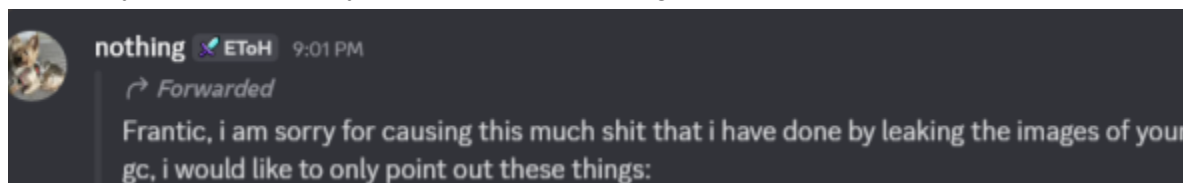

HOORAY!

Trying to leak my Roblox content next? Oh, and I bet it isn't just to retrieve your work, either.

Of course you'd be that obviously spiteful. Yet you still think you're on the right side of EJT history? (Not like future historians will dig this up like it's a national conflict, but still.) Please. If you weren't doing a huge act of betrayal previously, you sure as hell now.

...Sooo, Frantic, if you're reading this, just zip it, stop trying to spite me and back off. Before you find a way to infuriate every possible side of the argument.

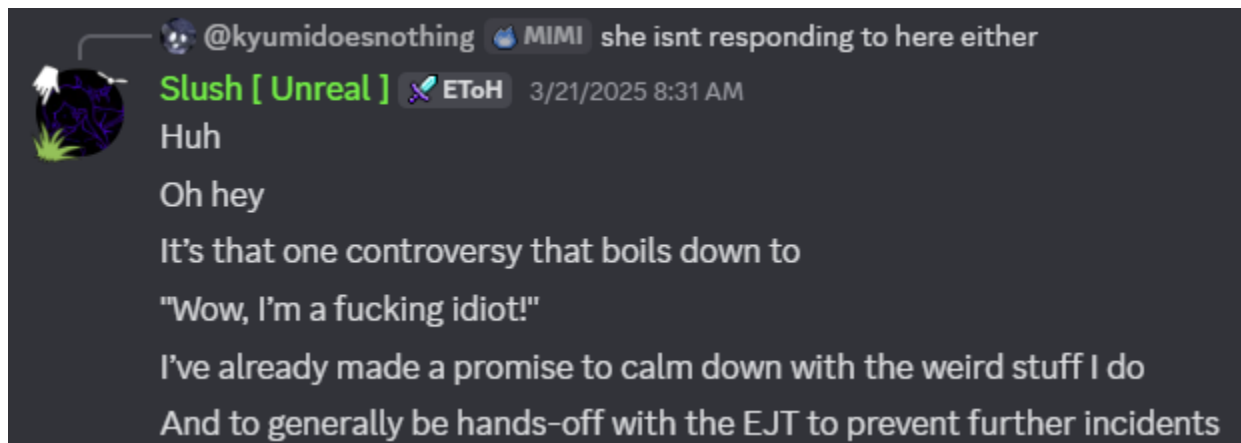

You are not sorry. What kind of "sorry" person would turn around some time later and pull THIS? And LAUGH the whole time?

8/15 Update: I probably should've announced this sooner than later, but past this point, you probably aren't going to see Finnaly mentioned again. He just keeps spitballing the same points

that don't even have footing. The same points that I can break down easily, and I have *multiple times*.

...

Now, what could have possibly happened to this?
