Dark Fiber -

Dan Augustine - Oakland Unified

Dark fiber is **fiber-optic infrastructure that is not yet “lit” or put into use by a service provider**. A dark fiber lease requires the customer rather than the service provider to maintain and operate the equipment required to “light” the fiber and use it for Internet access and communications.

See Dan’s Ultimate USAC Network from slide deck.

Berkeley Unified -

Sonic installed dark fiber. 10 yr contract over 4 payments(annually).

BiDi connections.
