Adopt a tree

Why adopt a tree?

Because we must take care and protect the trees from diseases.

How to adopt a tree?

Choose how are you going to take care of it
- water the tree regularly, especially during dry weather conditions, check the weather and adjust watering if needed
- protect the tree from pests, watch out for pests or diseases
- trim dead or broken branches
- in windy areas, give support, for example with a stake, to help it grow straight
