

There were students all lined up on the court. All the students were talking about how fun the tramp will be. They were all excited about the tramp and they were all prepared with a lot of tramping gear on. They all divided into groups and walked on the small blue busses.

All the adults were wearing bright orange vests. Most of the adults were walking around organizing the tramp and making sure it will be safe. The teachers were giving the adults vests to wear. Some adults were getting prepared to drive the busses.

We arrived at Awa Awa reserve and started our tramp. But first we had to know the rules. We had to follow a certain parent and stay in our groups. As we headed into the forest I started to see strange plants. But every once and a while I heard an animal. It wasn't to long before we heard the stream flowing.
