

ENTRANCE AGE REQUIREMENTS

A student may enter kindergarten if the student will be at least five years old before September 30 of that year.

Early Admission:

A child will be considered for early admission if the following conditions are met:

- The child will be at least six years old by October 31 of the year for which admittance is requested to Grade 1 or the child will be at least five years old by October 31 of the year for which admittance is requested to kindergarten. There will be no exception for children with birth dates beyond October 31.
- The parent must have completed and returned to the District office by June 1 an Early Admission Request form and a completed information packet for the child.

For children meeting these conditions, the District will schedule assessments that consider the emotional, social, intellectual, and physical readiness of the student for early admission. The individual evaluation shall be conducted by District personnel at no cost to the parent. Assessments will be scheduled after the close of school but no later than August 15th prior to the school year in question. Early admission will only be permitted for children who demonstrate an accelerated development level in all assessed areas. Parents will be notified with 10 days of the assessment results and the decision of the school assessment team.

As with all kindergarten registrants, students granted early admission to kindergarten cannot be guaranteed a space at the neighborhood school.
