

Hey G's had a client my agency made some results for, I would appreciate it if anyone would take a look at this outreach now that the game changed.

This is for a Liposuction clinic/plastic surgeon clinic.

Hey [Name],

Compliment.

Below, you'll see a picture of an email we received from one of your clients.

We achieved these results by implementing a strategy that encourages their customers to present themselves in the best possible way and to do that they will need existence from a hero. (The clinic)

From what I can observe from the outside, we can achieve similar results for you.

If that's something you're interested in, we could schedule a call.

P.S.

We are based in Denmark and are looking to expand. The 100,000 is in DKK, so the results from the 15 bookings we secured for them amount to around \$10,000.
