Tree Plantation Program

"SAVE TREE-- SAVE LIFE"

With great pleasure we would like to inform you that the Department of Automobile Engineering along with NSS and Extra Curricular Committee of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex organized the Tree Plantation Program on dated 17th July 2021 to save the vanishing environment and to beautify our life.

In some places of our country summer may annoucer the beginning of the rainy season, while in others it may start a long, dry spell without any water at all. The heat of the summer season is both the bane and blessing of most ecosystems. So, we need to hold our hands together to save trees as they will save our lives through reduced the environmental temperature and increase the humidity. Trees contribute to the environment by providing oxygen, improving air quality, climate amelioration, conserving water, preserving soil. Students of Automobile Engineering Department of Dr. Sudhir Chandra Sur Institute of Technology & Sports Complex organized a tree plantation program to "SAVE TREE-OUR LIFE".

Some snapshots of the posters prepared are attached herewith.
