**Audio Recordings By:** Kyungsan Kim (P5)

**Edited By:** Joshua Cajigal (P3 Elder), Mikaela Maemura (P4 Elder)

### **--> P5 DOD's Actions:**

Following the great dice folly of 2023, Period 5's DOD, Andrew Cheung sent an email to P5's civilians and P6's S.C.M and the DOD with the title "The Ruination" which was an email that explained that P5 & P6 has teamed up and should cause havoc in the class to purposefully go bankrupt in order to prevent P2 from taking advantage in the stocks. However, although this may have been a secret plan, it was quickly exposed to the public which P2 and P4 quickly found out along with King P. This eventually led to the State of Matter which demanded P5 to have the DOD resign and give away 50% of its budget for these two periods. P5's income is to be semester 1 payment while giving off 50% of their budgets and some even say that P5 should not be given karma sheets.

### **--> Consequences:**

With these demands and from the periods, P5 is currently on the edge to have no stable income that will not allow P5 "students" to achieve their semester goal of 800 which can risk their grade dropping. These problems happened because the DOD of P5, Andrew Cheung, recklessly decided on this plan without proper plans and decided to expose it to everyone in the periods which caused the words to be quickly spread. However, he said that all these happened for people to "have fun in P-Ville experience" while P5's students' grades are at stake.

### **--> P5 Supreme Council's Questionable Leadership**

However, though most of the faults lie in the DOD of P5, it is undeniable that some of the liability also lies in the S.C.M. The leaders of P5, are responsible for working to benefit the citizens of P5 with their main goal being to allow everyone in P5 to have karma points. However, instead of stopping DOD's action, they decided to not intervene even though S.C.M members were already informed through their group chat as Kai N. the Assistant Speaker stated in the interview, to "passively support" the DOD as Koma Saito S.C.M said. However, both the Speaker and Assistant Speaker believe that they weren't responsible for it despite being informed of this plan beforehand. There could've been a different outcome if S.C. stopped the DOD from carrying out the plan. Also, interestingly, S.C.M. decided to vote DOD out from his position without removing any S.C.M. even though they're also responsible for neglecting this issue. After the removal of the DOD of P5, Natalie F., the Speaker, and Kai N. Assistant Speaker decided to run P5 together.

### **--> Conclusion:**

The aftershocks of the great dice folly have shown to be much greater than the initial event. As more information unfolds, we can better understand that situation and what really happened on the inside. Was Andrew Cheung the only one at fault? What periods were truly involved? Do changes need to be made? Are civilians aware of what's happening behind the scenes? Do people currently in power deserve to be in power?
