

DNA REPLICATION MODEL

Identify each of the components of the model:

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____

9. Identify the 5' and 3' ends.

10. Adapt this model to include enzymes involved in replication. Draw a representation of:

- DNA helicase
- DNA polymerase
