

Privacy Policy for ANSRS Chrome Extension

Effective Date: 06/13/2025

What We Do

The ANSRS Chrome Extension helps users export sports data from Hudl to the ANSRS analytics platform. The extension only works when you visit Hudl and actively choose to export data.

Data We Collect

Sports Data from Hudl

- When you browse Hudl, our extension intercepts network requests to capture sports performance data (statistics, game data, player metrics)
- This data is temporarily stored and associated with file names you see on Hudl
- **We only collect data when you explicitly click "Export" - we don't automatically collect anything**

Authentication Data

- We use Firebase Authentication to securely identify you when sending data to ANSRS
- This includes your authentication tokens and user ID

How We Use Your Data

- **Data Export Only:** The sports data is sent to your ANSRS account when you click export
- **No Automatic Collection:** We don't collect or store data unless you actively export it
- **Secure Transfer:** All data is encrypted during transfer to our servers
- **Your Control:** You choose what data to export and when

Data Storage

- **Temporary Storage:** Data is temporarily held in the extension only until you export or close Hudl

- **ANSRS Platform:** Exported data is stored securely on the ANSRS platform for your analytics use
- **Firebase:** Authentication data is managed through Google Firebase's secure infrastructure

Data Sharing

- **No Third Parties:** We do not share your data with anyone outside of the ANSRS platform
- **Your Data:** The sports data belongs to you and is used solely for your analytics needs
- **Hudl Compliance:** We respect Hudl's terms of service and only access data you can already see

Your Rights

- **Control:** You decide what data to export and when
- **Access:** You can access all your exported data through the ANSRS platform
- **Deletion:** Contact us to delete your data from our systems

Security

- All data transmission is encrypted
- We use industry-standard security practices
- Firebase handles authentication securely

Changes to This Policy

We may update this privacy policy occasionally. We'll notify users of significant changes through the extension on our website.
