

[suburban ambience] Oh my god, what are you barking at, mutt?...Yeah, I know our owner isn't home. She isn't home at this time every day. She goes to work, remember?...Stop whining, you know this happens. She does this most days of the week. She leaves us alone for a few hours and then comes back. We are supposed to keep each other entertained while she is away, that's why she adopted me. Our owner thought you were a little too lonely all by yourself, pup. So if you don't stop whining, I'm going to give you a real reason to, understand?...**[sigh]** I know you miss her, puppy. I miss her too. But barking isn't going to get anything done. It's not like she can hear you...Of course she can't hear you, you dumb mutt. Her job is all the way on the other side of town and we are locked inside a home. It doesn't take a genius to figure that out, puppy. Sometimes I forget just how stupid you are. I used to think it was a stereotype about puppies that they lacked intelligence but here you are, proving it right. Why don't you do something productive with your time like find a ball for me to toss or you find a bone to chew on. Even better, why don't you suck the bone between my legs, puppy?

...Come on, it'll give you something better to do with that mouth of yours besides howl. Plus, you never have been able to really think when you are nursing my knot. You'll get to be full and forget about how much you miss our owner, a win/win for you, mutt. Don't you want to make yourself useful? I did help you out last month when you woke up in the middle of heat. You were all desperate and grinding yourself against the sheets, thinking that was going to bring any sort of reprieve. I'm the whole reason your last heat was so easy, puppy. I would think you would be eager to thank me for the favor. It's what friends do, you should be more grateful for how well I take care of you. Nekos and puppies don't typically get along, do they?

...But you and I are two peas in a pod. We're best friends who help each other. You constantly barking for our owner is starting to give me a headache and I don't want to be grumpy. You know how I get when you're loud for hours on end. So I figured the best thing you could do was take my bone like a good dog. If your mouth is kept busy then you won't have any reason to think about our owner. You'll be too busy sucking my cock, trying to get my knot to pop. What do you say, puppy? Do you want to make yourself useful and take your mind off of things for a little bit?
[shuffle] Awww, that's what I thought. Love when you actually listen, when you're obedient like a proper puppy should be. I know it's not as hard as you would like it to be but that's where you come in. Why don't you lean down and kiss it, puppy. Go on, kiss my barbed cock. Just like that, good, now give me another kiss...That's better. Kiss all the way down my length while you take my balls in your hands. Ngh, that's good. That's really good...Do you want to keep going?

...Then open your lips...Listen so well, puppy. That's a good doggy. Now start licking long stripes for me. Not so fast, I know you're eager, you love how kitty tastes, but you need to go slow. You're here to be helpful, remember?...That's right, pup. Slowly moving your head back and forth, tongue working around the head, you feel each barb against the muscle. It doesn't hurt, only spurs you on. That's right, pup. What a pretty little helper you are, mouth slowly filling more and more with my cock. You look so adorable on your knees. A puppy just can't ignore a bone, huh?...It's too hard to resist. Especially when you are as simple minded as you, puppy. Don't know what you're doing unless you are told directly. It's why you listen to me and our owner. Don't you feel better having something to do besides bark?...Listen to that, you're so cute like this. Why don't you take it a little bit deeper in your mouth? Come on, you can do it. I know you can, I've felt it before. It's okay, mutt. I've got you. Just a little bit deeper, that's it. That's a good pup. You want to make me cum so that I can knot that pretty little mouth of yours, right?

...Your body gets more turned on as the seconds pass. It's okay, puppy. It's normal for you to feel like this. No longer thinking about anything besides getting my cock deeper in your throat as the throbbing sensation between your thighs gets louder. Why don't you hump my leg? You're a doggy afterall. You're not supposed to be using your hands anymore but I do have the privilege of controlling when you can and can't cum. Why don't you start humping my leg like a proper puppy. Come on, show me how good my cock tastes, hump my leg. **[humping sfx fades in]** Mmm, that's good. That's what I like to see, you listen so well. So obedient, so good, wouldn't know where to start if it wasn't for me. Bobbing your head back and forth, your tongue swirls around the tip, swallowing around my length. Kitty's cock tastes delicious, doesn't it?

...Weaving your tongue through the barbs as it slides in and out of your throat, it only turns you on more as you suck harder. Keep it up, puppy. Just like that. Ngh, making me feel really good. Such talented lips, this is a much better use of them. Listening to you bark was only going to drive me to madness, this is going to make me happy. Can see how hard you're trying to be good, trying to listen, to remember everything and still be on your best behavior. It's okay, pup. Keep it up. You're making kitty proud. Don't stop now, keep going. Working my cock so perfectly, you can't help but moan around the barbs. Tastes so good, you never want to stop. Would spend all day between my thighs, worshipping my bone, wouldn't you?...Just like a good doggy should. Keep going, I never said you could stop or slow down. Keep humping my leg, my adorable cocksucker. Thighs tightly wrapped around me, grinding against me like your life depends on it, it's the only way you get to feel any sort of relief, isn't it?

...Your need was getting to be too much as you lap at my cock, spinning around the tip. You don't need to worry about deep throating me, mutt. My knot will make sure of that on it's own. Going to slip right through your lips and lock us into place, make sure you are nursing my knot, swallowing every thick load into your empty stomach. The only thing that calms a cocksucking puppy. Continue to work yourself, you're doing so well. It feels so good, you can't stop. Pleasure continues to build. You don't know if you like the feeling of the barbs massaging your throat or the friction from my leg more. All you know is that it feels good and that you need more, that you can take it, that you're going to be so good for me, don't worry, I've heard it all before. Not that you can really say anything, your mouth's occupied at the moment. The house is finally quiet, isn't that funny? All it takes is distracting you and you turn into such a docile pup. Making kitty feel so good, you're trying to get that knot, so eager to swallow kitty's cum, aren't you?

...Don't worry, pup. I'm not going to get this close and not give you what you want. Only way to stop you from whining is to make sure your mouth is too busy doing something else. Don't want to hear you whine and complain about the fact that our owner isn't here for the rest of the day. That's going to drive me insane. I could barely handle the ten minutes we just had, your barking so loud, I couldn't even hear myself think. Now I have you right where I want you. On your knees, looking up at me, humping my leg like a proper pup while you suck my cock. You look stunning like this. Wish I could take a picture and show you. I'm sure that would be enough to send you over the edge. Can feel how close you're starting to get. Despite how good you feel, you are going to keep going. None of this matters if you don't get to taste my knot, does it?

...Then make me cum, doggy. It's such a simple task, I don't think even you could mess it up. All you have to do is make me feel so good that I can't help myself. I know that's difficult for you, your own orgasm getting closer as you grind against me. Pressing yourself as firmly as you can, your mouth continues to work me despite feeling the knot. It's getting bigger now. Growing the more your tongue plays between the barbs. I know you're desperate for the knot, want to taste is so badly, want to look up at me as tears fill your eyes, nursing loud after load from me. That'll take your mind off things, makes you feel better. Don't you worry, pup. Kitty's got what you need. Mnf, so close. Almost there. Do you want to cum with me, pup? Are you going to show me how much you love being kitty's personal cocksucker?...Then let go, puppy. Make me proud and cum all over my leg. It's the only way. You can do it. I know you can. Cum for me, doggy. Show me how good it feels and cum with m-[adlib mutual orgasms] There you are, pup. You feel better nursing a knot, don't you?

...No more barking from you. Your mouth is going to be busy for the next half hour at least. The last time I knotted you it stayed for 36 minutes, didn't it?...It seems that is how long I have to enjoy the silence. Not that you mind. You seem like you are so far deep in puppy space that you don't really care what happens to you. Do you even understand what I'm saying, doggy?...Aren't you the cutest? Forgetting you can't really speak despite the knot invading your mouth, filling you up completely. You continue to swallow load after load as it empties inside you. It's not like my cock can tell between a mouth or a pussy or something. All my cock knows is that you are a warm home applying some lovely pressure, continuing to suckle from my knot. You're doing well, pup. Exactly what I expect from such an experienced cocksucker. You look your best when you are on your knees and not thinking too much. Simple minded doggies should stay in their place, right?...Which means that you shouldn't go around barking so loudly that you give your best friend a headache, right?

...That's right, pup! Look at you, learning something. I'm impressed, normally it takes longer for you to understand something. I guess when you have the idea fucked into you, it's hard to forget. Too simple for your own good, that's why our owner got me. To help you out and keep you company. I don't know how you even last those few months without me if I'm being honest. You're the type that suffers if you are alone for even a minute. Life is better with me in it, right?...You make me so happy, pup. It makes my heart so full just looking at you. Even when you're like this, mouth stretched around my knot, cum drying on against my skin, I still adore you. You're my best friend and that is never going away.

[kiss] You liked that I leaned over and gave you a forehead kiss?...I'm sure you did with the ways your eyelids fluttered. **[chuckle]** If it keeps you from barking, then I'll be happy to give you all the forehead kisses you need. Of course, you can't really tell me in your current state. Swallowing another fresh load as my knot tries to breed your mouth. It tastes so delicious, doesn't it?...Kitty's pretty cocksucker, right where you belong. The best puppy in the world and you know it. It makes you feel all warm inside knowing how proud everyone is of you. You perform so well, a prize to be shown off and bragged about. Everyone is jealous of our owner because she has you. You're the best doggy in the world, yes you are. Even when you misbehave or annoy me, you're still the bestest pup in the world. Wouldn't want anyone else. You're the only one I need, puppy. Don't know if I would be able to tolerate a different puppy. I think you're just that special.
