Homework	Homework is assigned on a nightly basis Mon-Thursday. WIN time is for HW help.	Homework will vary; may include videos, projects, current events, or studying.

General Information:

- Students are responsible for filling out planners daily. Being prepared daily is essential.
- Please notify office with all messages throughout the school day regarding dismissals, tardiness, or absence information.
- If homework is not done, students will have to double up the next night. Parents will be notified if it's a pattern. WIN is a great time to get a head start or even complete.
- All educational apps and websites will be signed through *CLEVER* this year to access a student's individual account.

Quizzes, Tests, and Projects:

- Tests and quizzes typically occur at the end of units and will be announced in advance.
- Product descriptor/rubric for long-range projects will be explained and given to students.
- We strongly encourage students to retake a quiz/test that's below a "3". It is the student's responsibility to make up during WIN period.

Class Participation:

- 5th grade expectation: Participate and be prepared with pencil, planner, charged iPad and needed handouts.
- Be on time, have materials for class, and maintain respectful classroom behavior.
