

Five Mugs of Chocolate

By Kathryn Roach Oct. 30, 2021

One mug of chocolate, we know what to do!
Pour another for a friend and now there are two.

Two mugs of chocolate as yummy as can be!
Let's have another for a friend and now there are three.

Three mugs of chocolate, with marshmallows galore
please bring another, and then there are four.

Four mugs of chocolate, put them in a row.
Four plus one so now there's five, hot chocolate's good
we know!

Five mugs of chocolate are such cozy fun!
Sip it slowly to warm up until it's yummy gone!

*Place mugs on felt board and count to 5
You can play, Which One's Missing with the mugs.
