

Amsterdam, 15 May 2023

To whom it may concern,

Oncra, represented by Climate Cleanup Foundation, hereby confirms that on 15 / 05 / 2023, a total of 760 Carbon Removal Credits (CRCs) were issued to Bambulogic Europe B.V. ('Bambulogic'), Sint Hubertusstraat 10, HAL 2, 6531 LB Nijmegen, the Netherlands; hereby identified by us with project identification number: BBL-L-003, on the land of Jacob van der Borne in Reusel, the Netherlands. Out of these CRCs 80% (608 CRCs) are currently available and 20% (152 CRCs) are kept in holding pool for risk mitigation purposes. Construction Stored Carbon (CRC) credits may be issued and used if the holding pool will be 100% used due to unforeseen circumstances. The characteristics of the awarded CRCs can be found on the Data Validation Statement with nr BBL-L-C003.

The purchase value of the CRCs is guided by the pricing of the EEX AG platform designated by the European Union.

[www.eex.com/en/market-data/environmental-markets/auction-market](http://www.eex.com/en/market-data/environmental-markets/auction-market)

All transactions (purchase / sale) of the CRCs must be recorded in the Oncra Ledger at all times. Therefore, the purchase/sale of these CRCs must take place via the Oncra platform or must be reported to Oncra in written form which needs to be confirmed to be legally acceptable.

The applicable Oncra Guidelines at the time of issuance of these CRCs can be found in the version dated 31 January 2023. In case of questions regarding the provided CRCs, please contact us at the contact details below.

For Oncra, legally represented by Climate Cleanup Foundation,

Sven Jense  
director
