

Team Name: Crazy Recipes

Report Number: 7

Reporting Week: 7 (Week of February 26th, 2023)

Summary of work completed in prior week:

A majority of the work done was development of our frontend mockup in HTML/CSS. We will develop the backend more and connect it at a later date- for now, we just want a more proper idea of what RecipeBuddy will look like when it's done. This will be presented soon.

Summary of work planned for next week:

Continue frontend development from a mockup into a functional prototype. We will also work to develop the other major components (backend, database, etc) of our product and begin linking them together.

Open issues and action plan to resolve them:

There are no issues at this time.
