

Learning Lab

The Learning Lab is a room where all students are able to receive academic support, skill building instruction, some competency completion, and take tests and quizzes. Any teacher can make arrangements to send students to the learning lab and work with the Learning Lab monitor to create an individual learning plan appropriate for each student. Students return to class once they have completed the work required.

Typically Learning Lab is held in a portion of the media center/library.

2019-2020 Learning Lab Staff:

Aaron Baker, Paraprofessional
