

### From Ms. Sawyer-

I really enjoyed having lunch with all of the classrooms during school social worker week. It was so special getting to spend time with everyone!

### From Mrs. Keene-

The school counselor's room has been very busy with 12 different groups. Some groups are helping to make beautiful 2-way and 3-way agamograms expressing kindness. The culture in our building is kindness and students are learning how to show kindness to everyone.

Another group is working on ways to express grief and loss by making memory boxes.

Luna is a service dog who continues to work daily with students helping them feel better, building self-esteem, etc. She looks forward to each student coming into the room as she runs over to greet them. She puts a smile on everyone's face who comes in to see her.
