

ADEOSUN TAIWO

There's a pregnant person here, she's on blue scarf, tell her not to be nonchalant about anything, even the smallest thing because she's not a person that should be nonchalant.

God said he has wiped off everyone's tears, God said he has seen everyone's heart and they should receive with faith. He has answered their prayers because most of them came with unbelief but I the Lord of truth have answered their prayers, because I am the God that rides on praises and is happy in the midst of people that are pure hearted. Tell this person to come back after everyone has gone, she should come back to praise me, her God and the person in charge of everything done here. She should be before me God and give thanks for what God has done through her.
