

Advising Schedule

Hamlin Collegiate ISD provides continuous advising support to P-TECH students throughout the school year. Students receive guidance on academic course selection, degree and certification progress, and career pathways during scheduled advising opportunities and as needed to address individual goals.

For seniors, dedicated meetings are scheduled each January to review postsecondary options, career plans, and transition strategies, ensuring students are prepared for the next step after P-TECH. This approach helps students remain on track to complete high school, postsecondary credentials, and work-based learning requirements in alignment with program expectations.

July
