Subject	More attention, more engagement

Hello Christine,

I found your website one of a few in the hypnosis niche that is well structured.

You have all the social media you need, all the necessary lead magnets, and the landing pages for a successful business.

Looking at your Instagram, there is a key component that's missing so you can get the highest engagement possible.

That is creating powerful titles that grab the attention of people instantly.

The combination of your pleasing-to-read posts and disruptive titles will make your Instagram really stand out from the rest of the competition.

Thus increasing your engagement, which leads to more traffic on your website.

Here are 10  Instagram Titles that you can try right now.

If find this helpful, reply with a "yes" and we can schedule a 10-minute call discussion.

Best regards, Christian
