

UPDATED Nov 6

A PLAN OF ACTION CHECKLIST: Want to help #SaveScorpion, but are feeling overwhelmed?

Start here.

✓ Look here for current events

[What are we doing? What events?](#)

✓ Request the show.

NOTE: Many of these services will track your IP address so even if you request it 100 times it still counts as one request (since its from ONE person). Please consider reaching out to friends and family and fans off social media to do this if you already have.

<https://help.netflix.com/en/titlerequest>

Request that Scorpion be a title added. Make sure you are clear you want season 5 of Scorpion.

<https://studios.amazon.com/contact-us>

Series suggestion > For your consideration. If you talk with a chat person tell them you are interested in them picking up Scorpion for season 5.

<http://audienceservices.cbs.com/feedback/feedback.htm>

From the drop-down menu select OTHER - NOT LISTED. They air Star Trek Discovery on their streaming platform (and only on their streaming platform). They also have a relationship with Netflix already (Star Trek Discovery is on Netflix worldwide, and even has its own Twitter). Say you'll get a CBS All Access subscription if they pick it up.

<https://help.hulu.com/s/contactsupport>

Try to get through to a chat person, say that you would love for them to air more Scorpion. And that you would like a Scorpion season 5.

<http://www.cbc.ca/independentproducers/contactus>

The CBC is basically the BBC for Canada.

<http://www.usanetwork.com/feedback>

A long-shot, and a USA-only network. But they have international deals with Netflix for many of their shows.

https://docs.google.com/forms/d/167-uScxNco0nqSsLVpJCwH8sqd80OZ1Sbd73Cigogu4/viewform?edit_requested=true

Sundance Now. (part of AMC) A long shot but worth putting in a request!

https://docs.google.com/forms/d/1eb6Jjzzeu3b64q9W7alXv7HiymXC-zWwKujK730ROal/vi/ewform?edit_requested=true

Shudder. (part of AMC) A long shot, but worth putting in a request! Emphasize how thrilling, and action packed the show is.

 **Send emails.** (NOTE: We update this frequently, please check this doc and scroll through to make sure you have emailed everyone on this list).

[Scorpion E-mail lists](#)

We now know they are getting our emails! Let's keep at it. Try to get that anger OFF social media. See this google doc we created for email addresses, as well as email templates and tips. Be polite, honest, and passionate. See our templates for some facts you can include. You can also use our [quick guide](#).

 **Mail stuff.**

[Scorpion Snail Mail List](#)

Only ideas here, we DO NOT have templates

Keep sending things. We have pre-made postcard templates you can use, as well as a website that will mail the postcards for you from anywhere in the world. Please check out our Plan of Action – Mailing doc. IF you mail a gift, please consider sending it via a professional service (flowers, cakes, etc.) as fan-made and hand-packaged things may be rejected. **And make sure to address it to a specific person or “OR FRONT DESK”, don’t just say the network name.**

✓ **Contact CBS's sponsors.** (NOTE: If you haven't done this yet, we suggest you do it NOW. We have a template for you to start with but please feel free to use your own words).

[Sponsor information](#)

Let them know how upset we currently are with the network. Be polite and honest.

✓ **Watch the show (legally).**

Watch the show via Netflix, Hulu, or Amazon (note: you have to pay per episode on Amazon BUT that also sends a clear message that you are willing to pay for it). If you are busy let it stream in the background, and try to get through all the eps, Netflix tracks that. Tell your friends and family to watch as well.

✓ **Call & fax people.**

[Scorpion Calling list](#)

Everyone loves getting phone calls! This can be nerve-wracking to do. We have a very basic script to follow for those that are nervous about speaking on the phone. We also have an assortment of fax numbers (and a website that lets you send faxes from a website) if you prefer to do that.

✓ **Tweet with us.**

[Scorpion Tweeting](#)

We have our main tag (**#SaveScorpion**) that we pair with one rotating daily hashtag. Every day (except Sunday) we have daily "power hours." Please see this Plan of Action – Tweeting doc for full details. **This doc will be updated if there are any changes.**

✓ Other social media.

Share our images, petition, and news stories on Facebook, Instagram, Tumblr, etc. Tag your friends and tag the show and networks. We are trying to make sure we don't become a Twitter echo chamber. Please share this checklist everywhere you can!

✓ Street team/outreach.

Share these guides with people who aren't on social media. There are fans who still aren't aware the show was cancelled. Make flyers and posters and put them up around your town. Take photos and tag the networks. Contact your local news networks and tell them about our campaign, tell them the data and facts and let them know if they write about us we can guarantee they'll get a TON of hits. Talk to your friends and family about streaming and watching the show. If we can get a spike in viewers on different platforms that is good for our cause. Refer them to this checklist if they wish to join the fight.

✓ Sign the petition.

Someone has created a petition to save Scorpion and it would be great to have more people sign it. Share it with your friends and family to sign as well. Be careful about creating new email addresses to sign as they have been deleting "non-legit" signatures periodically.
