

Share Group Name Want/Got list

Given some of the rad stuff that we've had at shares in the past, and bottles that we may even have on hand already, I figured it would be fun to see what stuff we would really like to try, or try again, or see at shares in the future. Chances are, we may be able to fulfill our own little 'want' list just within our own group. If not already, we may can pool our cellars together to land some huge wants.

List bottles you would like to see brought to our group shares...and feel free to list things that you wouldn't mind trading or adding to a 'group cellar', to fulfill someone else's, or your own, hardcore whale thirst..

Lastly, I don't want anyone to feel pressured to bring or add anything to the list that they haven't had the chance to try before...

Add notes beside the inclusions if it is something you would **REALLY** like to try!
