- The most profitable way to make money online
- Choosing the profitable niche
- Choosing your profitable digital product
- The magical system for automated sales!
- Generating massive traffic for free!
- Your ATM machine
- Getting started

Hey!! I'm so excited to put this together for you!! Because the internet literally changed my life & I know it can do the same for anyone who is committed to the process! If you are new here... Let me introduce myself & why you should listen to me.

I'm Ms. Dunjic and I used to be a broken waitress. Having to work multiple jobs during the week, getting gigs on the weekend to help pay the bills. And I'm telling you, internet changed my life completely!!

In 2024, I came across Digital Marketing, I saw an ordinary girl talking about how she found financial freedom on the internet and I decided to start in hopes to make an extra \$300/week. It turned out to be the best move I ever did, I went from working 50-60 hours a week to working 4 hours/day while taking care of my newborn baby. I am on my way to retire my husband, support my family, build a life with time and financial freedom!

I started as a complete beginner, no experience or followers. Just a huge desire to change my life! If I can do it, so can you! In this eBook I will show you how! Let's go!

I started as a complete beginner, no experience or followers. Just a huge desire to change my life! And I share this because I want you to understand, If I can do it, so can you! In this eBook I will show you how...

Are you ready to take control of your life & finally build a life with time & financial freedom?

Let's goooo!

What's Digital Marketing?

Digital marketing, in simple terms, is using the internet, social media, to sell anything online, it can be physical products, digital products, services, etc.

I personally love digital products, and that's how I've made multiple 7 figures online. Digital products are basically anything that can be downloaded immediately, like guides, courses, membership, etc.

Why Digital Marketing?

- The average annual income for **digital marketers is \$155k** (*this is not guaranteed, you get out what you put in!)
- All you need is a phone or laptop and Wifi
- No experience is required
- No you don't need a pre-existent following, this is part of the process.
- Get your investment back with ONE sale!
- Once you get your systems in place, you'll be making PASSIVE income, which means more time to be with your family, travel, and enjoy life!
- Forbes magazine just announced that Digital Marketing is going to be one of the highest-paid freelance jobs of 2024.

Social Media Marketing Skills In Demand, Worth \$1.5 Trillion By 2030

Digital marketing is one of the fastest growing in-demand skills for 2024, ranking in Coursera's COUR +1.3% top 10 list in their Job Skills Of 2024 report. The report unveiled that professions within digital marketing, which is set to witness a [6% increase in growth](#)—higher than the average job growth rate—by 2032, are steadily on the rise and will be fueled by

Why digital products??

I have tried everything: Selling on Amazon, e-commerce, dropshipping, trading, having a blog, everything.

And I have failed in every single one of these business models, because they are super complicated to start, low profit, and super competitive.

With digital products it's super quick & simple to set up and you can start making money quickly.

Now you might be wondering, Ms. Dunjic why do you think selling digital products is the best option?

With digital products, you can create the product one time and sell it over and over again for 100% profit! And the best part, you don't even need to create a product from scratch, if you don't want to! There are strategies that allow you to leverage done-for-you products & make 100% profit!!

You don't have to worry about production, inventory, shipping, refunds.

The risk is minimal. You can use inexpensive tools or even free ones that do most of the work for you!

And not to mention, you can start with marketing strategies that are free. You don't need to spend months building a team, creating a sophisticated website or hiring employees.

And guess what?

You keep 100% of each sale, and you don't have to worry about all the other things:

- ❌ You don't have to deal with customer service.
- ❌ You don't have to worry about the delivery of the product.
- ❌ You don't have to pay employees.

It is the dream business for any entrepreneur.

It's quick to set up, simple to scale, and generates revenue quickly.

All you have to do is create (or find) a digital product that people want and offer it to the audience suitable that is ready to buy.

If you are ready to take control of your life & finally build a life with time & financial freedom, keep reading to learn the exact steps...

Step 1: Choosing the profitable niche

Let me be honest with you... I'm not going to try to sell you on the idea of choosing your dream niche or "Choose a niche that you are passionate about"...

Because the truth is that it does not apply for everyone.

Don't get me wrong, some of you may have a niche in mind based on your passions. But if you're like me, you have no idea where to start. This is what I did...

Instead of choosing any niche, I chose a winning product.

Believe me, the moment you make that first sale, you will be passionate about that niche and product, guaranteed.

This is one of the biggest mistakes beginners make. They want to choose a non-competitive niche thinking that since no one is there, it is an untapped gold mine and it is easier to have success...

WRONG!

You don't need to reinvent the wheel! Some niches are evergreen, meaning it will always be profitable!

The three most profitable niches that work time and time again are

Health, Wealth and Relationships.

And you know what? Each of these niches has tons of subcategories.

For example, within the health niche, you can find products related to: keto diet, weight loss for women, man.. Etc.

Each one of these subcategories are making millions of dollars a month online!

All you need it's a piece of the pie!

Step 2: Choosing your profitable digital product

Once you have chosen your niche, it's time to choose your winning product. A profitable one that will make you thousands of dollars a month!

When it comes with digital products, there are 3 tickets (price) that you can sell:

- Low ticket - \$7-\$97
- Medium ticket - \$197 - \$2,000
- High ticket - up to \$2,000

And here you have two options:

✓ You can create your own digital products, based on your own experiences & knowledge.

✓ Or you can buy a product with resell rights that you can sell as if it were yours and keep 100% of the money.

"Wait a minute! Resell Rights? What is that?"

Master Resell Rights (MRR) is a legal clause that allows a buyer to resell the product. Basically, it means that when you buy a product that has resell rights, you get the rights to resell exactly the same product as many times as you want and keep 100% of the money.

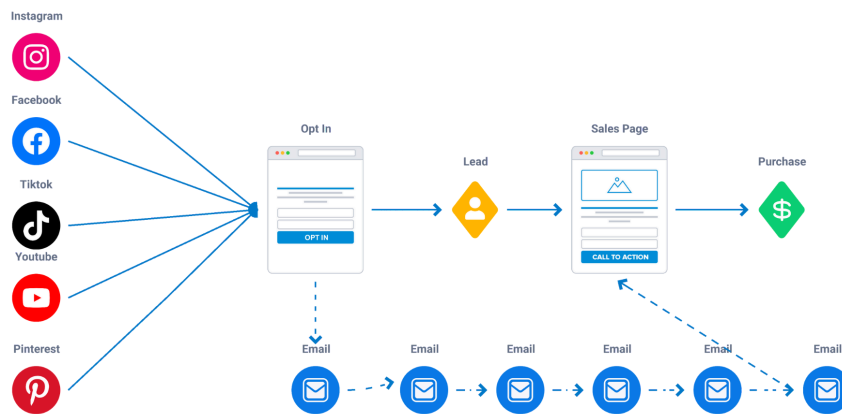

The main product I am selling at the moment is a digital marketing course that has resell rights. [Digital Wealth Academy](#) is a complete marketing course that teaches all the concepts you need to know to create your own online business from scratch.

Thanks to the fact that I was able to start selling this product I was able to earn more than \$10,000 dollars in 45 days!

If you want more info about this product, you can [click here](#). But don't forget to finish reading this guide.

Step 3: The magical system for automated sales!

You don't need a fancy & complicated website to start selling, **all you need is a high converting funnel!**

This exact system is what will allow you to make money even when you are not working, meaning you can be sleeping, traveling, spending time with your family, this system will work for you making passive income!

Let me explain how this works:

⇒ **The first page is called the Optin Page.** Your only goal is to motivate people to give you their email address. So you can start creating your email list.

For this to work, you can offer them something for free. For example, a free guide "10 foods you should avoid to lose abdominal fat" would be an excellent idea in the niche of weight loss.

⇒ Now, **the second page - the sales page.** When you recommend a product to someone, you must create a compelling case for why they need it. Think about how your product can improve their life in different ways.

⇒ **Last but not least, the checkout page.** This is a very simple and straight to the point page. You present a summary of what the person will receive when purchasing your product and the details to make the payment. Be sure to include some frequently asked questions and testimonials.

Step 4: Generating massive traffic for free!

This is the most important part of the whole system. Generating traffic (people) to your system. This is where the magic happens. It's about creating content to get sales.

Now the good news is that you don't need to pay thousands of dollars in advertising to send traffic (people) to your systems! You can leverage social media to bring massive traffic & make sales for free!

I'm talking about TikTok, Instagram, Facebook, YouTube, blogs, Pinterest, basically, any social media platform.

We live in an era where you can post 5-10 seconds effortless videos & make thousands of dollars!

And you don't need to have a lot of followers! NO NOT AT ALL! You don't have to be an influencer with thousands of followers to make this work.

In fact, you can only have 100 followers and still earn \$2,000 dollars a month.

How? Selling medium and high priced products. For example, one of the products I sell costs \$497.

1 sale a week is \$1,988 a month...

2 sales a week are \$3,976 a month...

1 sale a day is \$14,910 a month...

I think you get the idea. It's about quality, not amount.

So don't get obsessed with the numbers. Focus on creating engaging content, connecting with your audience, building a community and bringing value. That is the secret formula to direct traffic and make money with digital products.

Step 5: Your ATM machine

Your email list is like your ATM machine in the digital world. Seriously, it's the only asset that you truly own.

Here's the truth: the more emails you have, the more money you will earn. It's as simple as that.

Let me give you a basic rule: for every email that you have in your email list, you can expect to win about \$1 dollar per month.

So, imagine this: *if you have 5,000 emails from people interested in losing weight, you could easily earn around \$5,000 a month just by selling to them products related to weight loss.*

It's literally like an ATM machine!!

Next steps... How to get started...

I know exactly how you are feeling! Learning something new can be overwhelming & so scary, right?

But what if this opportunity could change your life completely? Seriously, when you believe in yourself and your abilities, incredible things can happen.

Let me tell you a little secret: I was exactly in your shoes. I had no experience, skills or knowledge of social media and marketing.

But you know what? I was desperate for a change, and that's why I got started!

This opportunity gave me time & financial freedom that I never knew was possible for me! And I truly believe this is possible for anyone who is willing to put in the work, learn the process & remain consistent!

Believe me, I am living proof that if I could do it, you can too!

If you are ready to get started and you need extra help on your path, here's your next steps... I have just what you need. [Digital Wealth Academy](#) with Master Resell Rights is the perfect way to start in this world.

You will learn all the skills you need to start making money with digital products, and you get the rights to resell it for 100% profit! One sale & you make your investment back, and then it's all profit!
