THE MVSU OPPORTUNITY FUND

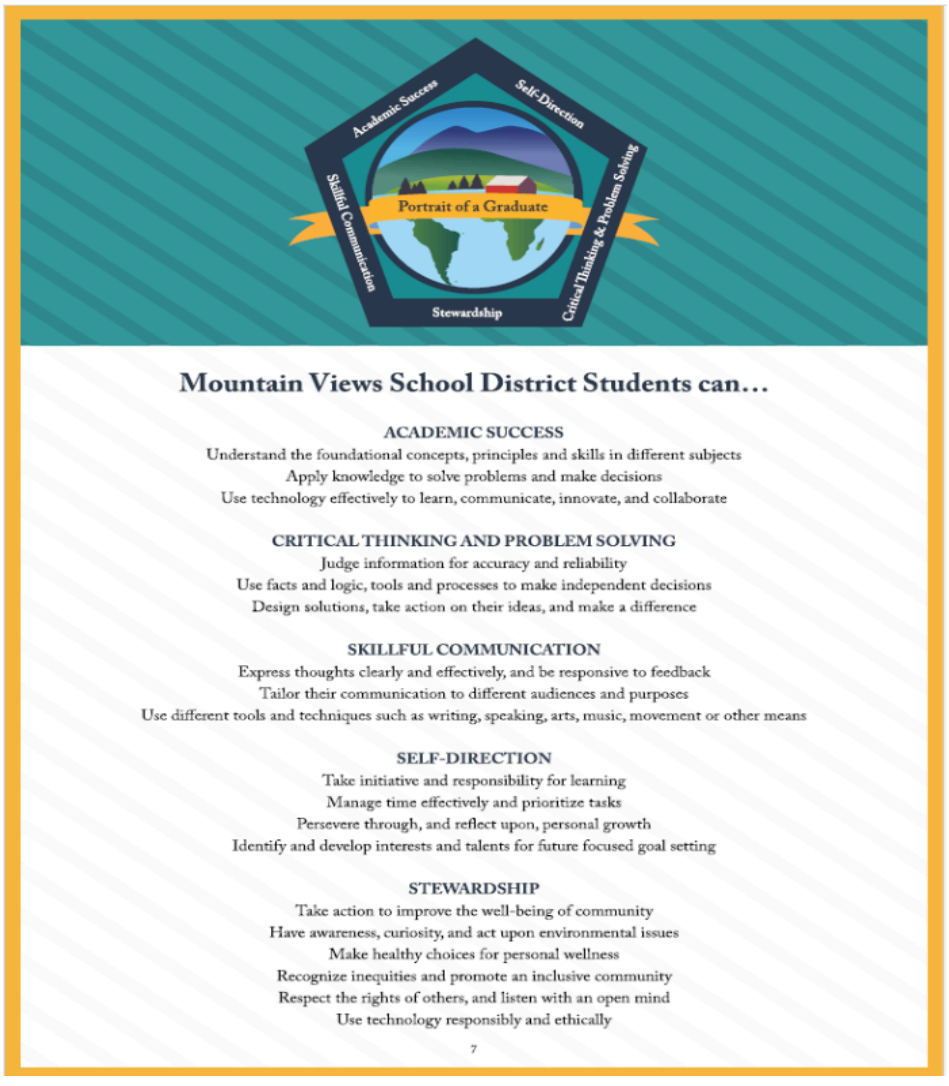

The Mountain Views Opportunity Fund was created to support:

- innovative, one-time projects that are not eligible for the MVSU budget, or
- urgent needs that emerge after budget finalization or which were accidentally omitted from the budget, or
- projects that further the goals of our Portrait of a Graduate

Special consideration is given to projects that help the most students, and projects which meet the needs or expectations of our families and communities.

Your idea can achieve the above goals through many different ways, such as action projects, outside learning experiences, and classroom resources. Your goals must align with at least one attribute of MVSU's Portrait of a Graduate. Project examples could include:

- Student agency and voice
- Equity, inclusion, and diversity
- Innovation
- Service learning
- Social justice
- Equitable climate action
- Creativity and self-expression
- Cross-grade and cross-school integration
- Science, Technology, Engineering, Arts, and Math (STEAM)
- Social sciences (civics/civic engagement)
- Place-based education
- Nature-based education
- Environmental
- Law
- The humanities
