

Zidoo UI Customization

This is a guide for customers to customize the user interface.

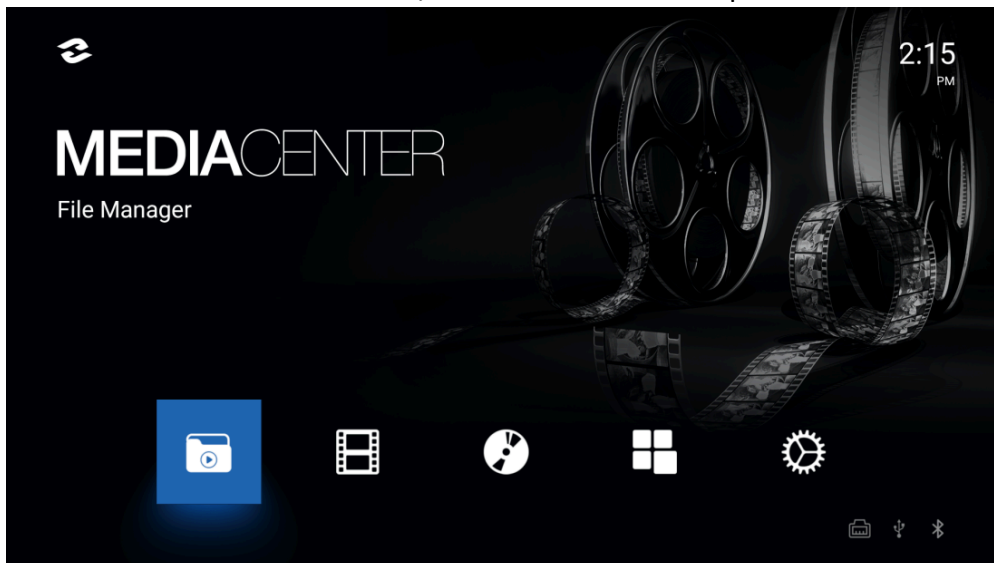

Note: Apk and files download links are at the end of this article.

For Zidoo Z9X/Z10PRO owners who want to change blue theme UI into black theme UI with Z1000PRO and UHD3000, please firstly install “ZIDOO_UI_1619DR.apk” press the HOME button on the remote control in the homepage, select “ZIUICancer > ALWAYS” as the picture shown below.

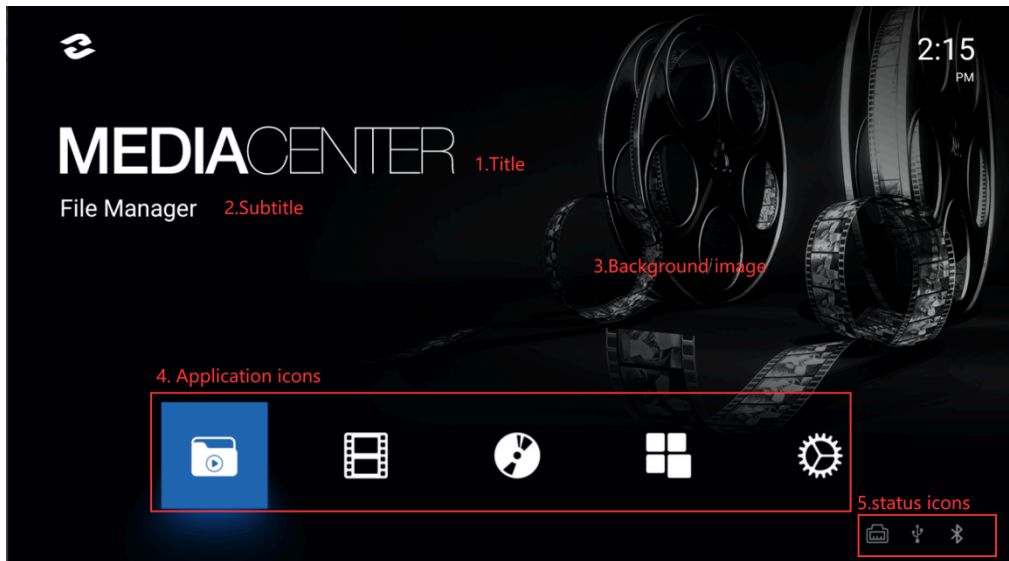

1.Introduction

1.1 The default Zidoo Z1000PRO/UHD3000 UI is like the picture below.

1.2 Here are components of the user interface, which can be replaced and customized according to your preferences.

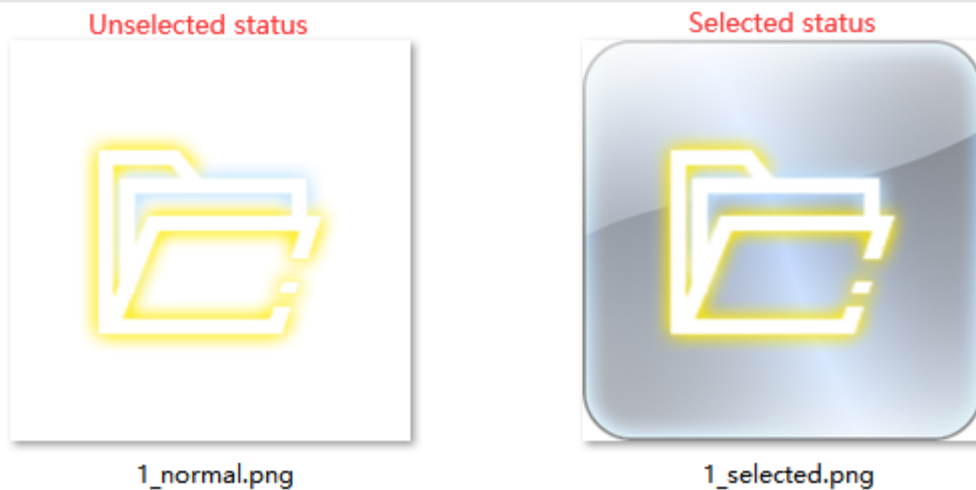

2. Images Preparation

Make preparation for pictures and components that you want to replace. These pictures can be found on the Internet or designed manually.

Note: only .png pictures are supported.

① There are 5 application icons on the UI and all can be customized, each icon needs to prepare two pictures for selected status and unselected status.

Selected icons (200x200px) are named as:

1. 1_selected.png
2. 2_selected.png
3. 3_selected.png
4. 4_selected.png
5. 5_selected.png

Unselected icons (200x200px) are named as:

```
1. 1_normal.png
2. 2_normal.png
3. 3_normal.png
4. 4_normal.png
5. 5_normal.png
```

② There are 5 background images (1920x1080px), move cursor will change background images. Background images are named as:

```
1. 1_background.png
2. 2_background.png
3. 3_background.png
4. 4_background.png
5. 5_background.png
```

③ Status icons on the right-bottom corner are named as:

```
1. icon_wifi.png
2. icon_ethernet.png
3. icon_storage.png
4. icon_bluetooth.png
```

3. Config.txt file

The Title, Subtitle and APP icons are corresponded one by one. Create the config.txt file below, texts marked with purple can all be replaced. **Please note package APPS is a must, which cannot be replaced.**

```
{
  "apps": [
    {
      "title" : "MEDIACENTER",
      "subtitle": "File Manager",
      "package": "com.zidoo.fileexplorer"
    },
    {
      "title" : "POSTERWALL",
      "subtitle": "Perfection For Movie Experience",
      "package": "com.zidoo.poster"
    },
    {
      "title" : "MUSICPLAYER",
      "subtitle": "Enjoy The Melody",
      "package": "com.zidoo.audioplayer"
    },
    {
      "title" : "APPS",
      "subtitle": "Find More Applications",

```

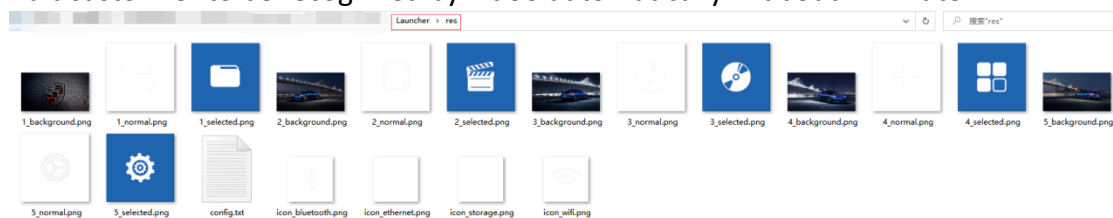

```

        "package": "APPS"
    },
    {
        "title": "SETTING",
        "subtitle": "Personalization",
        "package": "com.android.quick.settings"
    }
]
}

```

4. How to Change UI?

Create a folder named **“Launcher”**, sub-folder in it named **“res”**, put all images and the config.txt into this sub-folder. Then copy the **“Launcher”** folder into the **Root Directory** of a USB stick. Connect this USB stick with Zidoo Z1000Pro/UHD3000 and wait custom UI to be recognized by Zidoo automatically in about 1 minute.

5. How to recover the default UI?

All APPs > ZIDOO_UI_1619DR APP > Long press “OK” button to “Clear Data”.

Note:

- (1) If you are not satisfied with the custom UI, it can be re-customize by the guidance above.
- (2) If the UI hasn't been replaced successfully, please unplug other USB sticks or hard drives and try again.
