**Last Updated:** January 30, 2026

## 1. Introduction

Welcome to **PuzzleScroll**. We value your privacy and are committed to protecting your personal data. This Privacy Policy explains how we collect and use information when you play our puzzle game.

## 2. Information We Collect

We prioritize data minimization. We do not collect or store personal information such as your name, email address, or physical location. However, to provide core game functionality, we collect:

- **UUID (Universally Unique Identifier):** A non-personal identifier stored locally and on our secure servers to facilitate the restoration of consumable purchases and track game progress.
- **Device Information:** Basic technical data (e.g., device model, OS version) required for app stability and performance monitoring.

## 3. Payments and Consumables

Our app offers in-app purchases. All financial transactions are processed securely by **Google Play Billing**.

- We do **not** have access to your credit card or banking details.
- We use your UUID solely to ensure that any purchased items are correctly attributed to your account.

## 4. Advertising

To keep our game free to play, we display advertisements. These third-party ad networks (e.g., AdMob) may use pseudonymous identifiers to serve relevant ads. You can manage your ad preferences through your Android device settings (Google Settings > Ads).

## 5. Data Retention and Security

- **Local Storage:** Your UUID and purchase tokens are stored locally on your device to ensure smooth gameplay without a constant internet connection.
- **Security:** We implement industry-standard security measures to protect the integrity of the UUID data used for payment restoration.

## 6. Children's Privacy

Our game is designed for a general audience. We do not knowingly collect personal data from children under the age of 13. If you believe we have inadvertently collected such information, please contact us immediately so we can delete it.
