ABSTRACT (Book Antiqua 11pt, bold, italic, capital)

Abstract should be written in English. The Abstract is written Book Antiqua pt, italic, single spacing, with spacing after paragraph 11 pt. The Abstract is a summary of the research, including background, problem/research, research method, result, discussion, and conclusion. The abstract should be 200-250 words written in one paragraph.

Keywords: 3-6 Keyword in English (12pt)

Background (11pt, bold)

The author(s) must convey the background of research clearly and show the focus and the problem which is research. Background should mention the purpose of article review. The author(s) must also clearly show the novelty (state the art) of this research.

The manuscript is typed in Microsoft Word in Book Antiqua font, size 11 points, with 1.15 spaces, top, right and bottom margins 2,5 and left margin 1,9, printed on A4 paper with a minimum of 3000 words (8 pages) and a maximum of 5000 words (15 pages). Articles written in Indonesian or English. However, if the manuscript is sent for publication, the author(s) will ask to translate the manuscript in English according to the rules of the academic language.

Literature Review

Convey the literature review as comprehensive study and interpretation of literature that addresses a specific topic. The theoretical approach(es) used in topic or question on background, to identify, appraise and synthesize evidence in order to answer specific research questions.

Method

Convey the method clearly, not long-winded and comprehensive. In short, the writer must be able to explain how this research is done, how the data was analyzed and so on.

Result and Discussion

Convey the findings comprehensively with proper and directed analysis. References use a referral technique with the APA system (name, year). The inclusion of indirect references should be accompanied by information about the page number where the citation comes from. Example: (Held, 2004). Highly recommended the author(s) using reference management such as mendeley, zotero, etc.

If there are tables or figures to be adjusted to the size table or figures. For the table to made like the following example:

Table 1. (11pt, bold)

No	content 1	content 2	content 3	……

Sources: obtained from primary data

Figure 1.

Sources: obtained from primary data

Conclusion

Convey summarize the results and discussion of research or discussion.

References

References are libraries published in the last 10 years. Preferred references for research articles are primary sources in the form of journals (80%) and research reports (including thesis, and/or dissertation) or research articles in scientific journals and/or magazines.

The reference list is arranged in the following manner and is arranged alphabetically and chronologically as follows:

Reference in the form of a scientific journal:
