ACADEMIC ELIGIBILITY

Explanation

The academic eligibility system is created to help students stay involved in extracurricular activities, even if they are struggling academically. Communication between school staff, parents/guardians, and the student are critical within this system.

Eligible

Eligible students may participate freely in extra-curricular activities without complying with any additional expectations. A student will be assigned a status of eligible if they are passing all classes.

Probation

Students on probation may participate in practices/meetings and competitions provided that they comply with academic interventions and other additional expectations. A student will be assigned a status of Probation if they are failing 1 course on an eligibility report.

<u>Ineligible</u>

A student will be considered "ineligible" if they are failing 2 or more classes on an eligibility report. In order to continue participating in their activity, they must schedule a meeting with the principal or counselor and their parent/guardian within 5 school days of the eligibility report. During that meeting, a contract will be developed to help the student improve their grades. The student and parent/guardian will sign the contract and the student will be permitted to continue participation in their activity as long as they are meeting the terms of the contract. If they do not meet the terms of the contract, they will immediately be removed from the activity. A student cannot have an eligibility contract during two consecutive 5 week marking periods.
