SUMMARY

Founding full-stack engineer with production experience building AI systems, multi-agent pipelines, and LLM integrations. Own end-to-end engineering at Finlegia (B2B fintech SaaS) and solo-founding Klovio (AI SaaS). Thrive in high-ownership, fast-shipping environments — zero to production with minimal handholding.

EXPERIENCE

Founding Software Engineer — Mindfultech (Finlegia)

May 2024 – Present

B2B Financial Workflow SaaS · Bengaluru

- Owned full-stack architecture: Node.js/Express APIs, PostgreSQL schema + indexing, React/Next.js frontend — improved app performance by ~50%.
- Built AWS infrastructure (EC2, RDS, S3, SQS/SNS, CloudWatch) with Docker CI/CD; cut deploy time from hours to under 10 minutes.
- Integrated LLM APIs for workflow automation; built real-time voice agent pipeline (Twilio + Sarvam ASR/STT, WebSocket STT→LLM→TTS loop).
- Designed async event pipelines with idempotency and DLQ handling for reliable financial data processing.

Stack: Node.js, Express, React, Next.js, PostgreSQL, AWS, Docker, Redis, Twilio, Sarvam STT, LLM APIs

PROJECTS

Klovio — AI-Powered Freelance Ops SaaS (Solo Founder)

2025 – Present

- Building full-stack SaaS from scratch: Next.js, Node/Express, PostgreSQL, Cloudflare R2, Razorpay, Vercel.
- Implementing LLM-powered document generation and multi-agent delivery automation as core product workflow.

Stack: Next.js, Node.js, PostgreSQL, Cloudflare R2, Razorpay, LLM APIs

Appwrite — Open-Source Contribution

2025 – Present

- Contributed Gitea and GitLab VCS adapters to Appwrite's utopia-php/vcs — implemented OAuth flow, webhook methods, repository parsing, and CI/CD trigger handling for both providers.

Stack: PHP, Gitea API, GitLab API, GitHub Actions, Docker, Webhooks, OAuth2

SKILLS

Languages: JavaScript (Node.js), TypeScript, PHP, Python, SQL

Frontend: React, Next.js, Vue.js, Nuxt.js, Three.js

AI & LLMs: LLM API integration, Prompt Engineering, LLM Evaluation, Voice pipelines (STT/TTS), Multi-agent orchestration

Infra: AWS (EC2, RDS, S3, SQS, CloudWatch), Docker, CI/CD, PostgreSQL, Cloudflare R2, Redis

ACHIEVEMENTS

1. IISc Robotics Hackathon — Winner
2. Microsoft Imagine Cup India — Finalist
3. Amadeus International Hackathon — Finalist
4. Smart India Hackathon (SIH) — Finalist
