

WCFCC Parent Education Series

Positive Behavior Support

Please join us as we welcome our March Parent Education Series presenters Mrs. Costa LMHC (Child Life Counselor) and Mrs. Magner (Special Education Teacher) as they help us learn how to incorporate positive behavior support strategies that will help improve behavioral success through non-punitive and proactive techniques. Positive Behavioral Support (PBS) is a school wide framework that offers an approach to develop an understanding of why children engage in challenging behavior and strategies to prevent challenging behaviors while teaching them new skills. This workshop will focus on how to implement and carry over these PBS strategies into the home environment. We will review how to help your child identify their feelings, work through challenging emotions while gaining appropriate coping skills. We will also review preventive strategies such as creating routines, rules and schedules.
