7. WARNING.

WARNING!

Remove Cover & Lid Before Use
Do Not Cover Until Firepit table Has
Completely Cooled

Maintenance:

1. Keep the burner **clear of all flammable and heat-sensitive items**.
Never place fire pit under trees, low-hanging plants, or anything flammable.
2. Do not operate the fire pit in an enclosed space. Make sure to have a **well-ventilated area outside**.
3. **Never use accelerants** such as gasoline, lighter fluid, or any highly flammable liquids to start a fire. Always use the electrical ignition to start the fire to avoid damage and harm.
4. Occasionally have a **licensed professional check all lines and fittings** to make sure they are tight and clear from any hot surface during use.
5. Children are to be kept under supervision at all times during operation. Make sure to **keep everyone at a safe distance** to enjoy the fire.
6. Keep **water or a fire extinguisher** close by in case of an emergency

General Care:

1. Allow the fire pit to **cool down completely** before storing it away. Use the included PVC cover and burner lid when the fire pit is not in use.
2. Store in a **cool dry place away from sunlight**. For harsh weather like snow or hail, move the fire pit to a location away from the elements.
3. Keep the **burner clean of debris and dirt** to prolong the life of your fire pit.
4. **Never cover the fire pit if it is wet**. Completely dry then store away to avoid water staining.
5. If needed, use **mild soapy water and a cloth** to wipe clean any dirt or debris. **Never use an oil-based cleanser** to wipe or clean the fire pit. For tougher stains and watermarks, toothpaste can be used as an inexpensive and common cleaner.

NOTE: Staining and cosmetic damage is not covered under warranty

NOTE: Improper use and tampering can lead to serious injury. Always have a licensed professional to service your fire pit.
