

Placement

Once a student is identified through the screening/referral process, parents will be notified by letter. Students may be placed under one of the following four areas to receive services:

- AG - (Academically Gifted in both Reading and Math)
- AM - (Academically Gifted in Math)
- AR - (Academically Gifted in Reading)
- IG - (Intellectually Gifted)

Students remain in the program until graduation, unless the parent requests removal. At any given time, it may also become necessary to re-evaluate a student's identification or services. Parents, teachers, or the student may request such a re-evaluation.
