

Texas Child Health Access Telemedicine (TCHATT)

A&M College of Medicine

Our district partners with A&M University College of Medicine to provide behavioral health visits for our students. Students can now be referred.

If you are interested in learning more about TCHATT here is an [A&M University College of Medicine website](#) regarding TCHATT services.

HOW To Refer A Student For TCHATT Services:

The Process-Short Version:

- Teacher consults with the parent regarding their concerns
- Teacher completes the online Brock [TCHATT referral form](#)
- Counselor will reach out to the parent
- Counselor will send the parent a confirmation email-BISD Brock Parent Consent form
- Once the parent consent form is finished the counselor will complete the online TYRAT referral for TCHATT services
- TCHATT will email the parent consent documents - an interview will not be scheduled until the TCHATT consent forms are filed
- TCHATT will reach out to the parent for an interview
- If approved for visits the counselor will send out calendar invites of the days and times of the appointments to the teachers

The Explained Version:

- Teacher consult with the parent of the child you are wanting to refer
- **Remember these are behavioral health visits:** if a parent has not heard from the teacher regarding social, emotional, behavioral concerns they may not understand why the counselor is calling them
- If you desire for the counselor to make the call with you I am happy to do that

- **IF you wish** to explain the purpose of TCHATT to a parent this website from [A&M University College of Medicine](#) is filled with mission statements, explanations, video clip, many things-it is the same web page the counselor will refer parents to for review
- Teacher completes the [Brock TCHATT Referral form](#)
- If the counselor has clarifying questions prior to calling the parent the teacher may be contacted for clarification
- Counselor will call the parent, follow up with a parent email to confirm the referral and send the BISD Brock Parent Consent Form
- Once the parent BISD Consent is received by the counselor the counselor will complete the TCHATT referral online
- TCHATT will send the parent their TCHATT consent documents and will not reach out to the parent to schedule an interview until they are completed
- TCHATT will schedule an interview with the parent
- TCHATT will then contact the school counselor to schedule sessions via an email for you to join a chat with them
