

Outreach email

Hi Harry, my name is Mangok Mangok and I'm a Digital Consultant.

I've gone through all your social media accounts and website thoroughly, and looking from the outside in I've come up with the 4 problems that are limiting your business from overtaking competitors.

Your business is doing a lot of things right however, I think through a partnership between the both of us, we'll be able to take your business to the next level

I've attached a free piece of copy below that I've made suited for your particular business. (it's not the finished product, because again I'm looking from the outside-in)

Hope this finds you well Harry.
