

Outreach message for Football coaching business

S.L: Quick message for

Hi Miraaj,

After watching your Instagram reel on 1v1 football drill, I thought your football coaching skills were quality and you seem to have a natural charisma and your skillset at connecting with people sets yourself apart from all the other football coaches.

I stumbled across your page as I was researching the most effective coaching methods to improve players' game.

Out of curiosity, I clicked on your website and after reading the first few lines it immediately reminded me of a method used by Mindvalley and FixMyMind. of traffic generation I saw online.

I like to call this method Home page disruption and it is used by all the biggest football coaching businesses such as Football DNA, Simpi Faster and Matchfit Football, so you can direct more people to buy your plans.

I understand you have things to be doing, so if you want to hear the ideas, reply with a yes and I will share them with you.

Additionally, I was brainstorming ideas for you to drive traffic to the link in your Bio and created these 3 Instagram captions.

Feel free to use them.

Kind regards,

Angus.
