

Canadian Medical Student Social Media Accounts

The Northern Ontario and Rural Medicine Committee at the Ontario Medical Students Association and the Government Affairs and Advocacy Committee at the Canadian Federation of Medical Students have collaborated to share Twitter and Instagram accounts of medical schools, residency programs, medical associations, and interest groups from across the country. We hope this list will help keep you informed about events and give opportunities to engage with programs and interest groups across the country while we are social distancing!

This list includes accounts relevant to medical students and is categorized by school. A list of accounts divided by medical specialty can be found [HERE](#)

This list will be updated regularly. If we missed an account that you think should be included, send an email to norm@omsa.ca and we will add it to the list!
