Technology Bombay

Screening task for Semester Long Internship - Autumn 2025 - under FOCAL

✓ Task 1 (Graphics Design – Choose any one software: Inkscape / GIMP / Scribus)

Create a Promotional Poster for FOCAL Project

- Theme: *"Promoting Open Source Tools for Creativity"*
- Size: A4 (portrait or landscape)
- Must include: FOCAL logo + tagline + any 3 open-source tools (Inkscape, GIMP, Blender, Synfig, Scribus).
- Deliverable:
 - Editable source file (.svg, .xcf, .sla etc.)
 - Exported PDF/PNG version.

👉 This tests for **design sense, layout skills, and software knowledge.**

Logos have been placed in the shared drive folder for your use:

<https://drive.google.com/drive/folders/1JduSjGiCisfN1x-QeEEm0Cxu2UHq8ykm?usp=sharing>

✓ Task 2 (Animation – Choose any one software: Blender / Synfig Studio)

Create a Short Animation (10–20 seconds)

- Topic: *"Why Open Source is powerful for artists"* (can be symbolic, storytelling, or abstract).
- Animation can include text, shapes, characters, or 3D objects depending on chosen software.
- Deliverable:
 - Source project file (.blend or .synfig)
 - Final rendered video (MP4).

👉 This tests for **animation basics, storytelling, and ability to work with open-source tools.**

Submission:

Provide a shared Google Drive folder containing TASK, which includes raw files and output of the task, and the project source files.
