June 2025

Dear Friends and Acton Conservation Trust Members,

Preserving open space is a legacy that lasts forever. For over two decades, the Acton Conservation Trust has protected nearly 400 acres of cherished land in our community—land that future generations will explore and enjoy.

We're seeking passionate individuals to join our Board of Trustees and help shape the future of land conservation in Acton. As a board member, you'll play a vital role in:

- **Connecting with landowners** to explore preservation opportunities.
- **Leading outreach efforts**, including marketing campaigns for Town Meeting preservation votes.
- **Organizing community events**, such as guided land walks, naturalist talks, and conservation workshops.
- **Stewarding protected lands** by overseeing conservation restrictions, baseline documentation, and annual monitoring.
- **Fundraising** to support land acquisition projects.
- **Maintaining trails and conserved properties** through volunteer workdays.

Our independent nonprofit thrives on a collaborative "land preservation ecosystem," partnering with town boards, committees, and regional conservation organizations. Together, we've built a proven model for success—and we're eager to do even more.

Why join our board?

- Make a lasting impact on Acton's natural heritage.
- Work alongside dedicated conservationists in a supportive, dynamic team.
- Develop leadership skills and build connections in the community.
- Experience the pride of seeing tangible results from your efforts.

We're looking for committed individuals with a passion for conservation. No prior board experience is required—just enthusiasm and a willingness to contribute. Board members typically dedicate 5–10 hours per month, with opportunities to engage in projects that match your skills and interests.

Ready to make history with us? Please contact our Search Committee members, Joe Cooney (cooney.joe@gmail.com) or Dave Hardt (hardt@mit.edu), or reach out to me directly at mitchellhardt@gmail.com. We'd love to discuss how you can help protect Acton's open spaces for generations to come.

With gratitude,

Susan Mitchell-Hardt
